Texas Early Voting Rosters: County and State Data Review

Election: November 3, 2026 General Election
Data through: Tuesday, October 27, 2026 (ninth day of in-person early voting)
Prepared: October 28, 2026 (updates the reviews of October 20-27; county files as posted by 1:44 PM October 28, including October 27 lists that counties posted the evening of October 27, with Wichita's latest files downloaded by hand that morning; state files as posted by 8:58 PM October 28)
Scope: the 50 most populous Texas counties and the Texas Secretary of State (SOS) roster portal

1. Summary

Texas Election Code §87.121 requires each county to post its early voting rosters (in-person and by mail) daily and to submit them for statewide elections to the Secretary of State, which republishes them. This update compares the county and state lists voter by voter (by Voter Unique Identifier, VUID) for the first nine days of in-person voting, October 19-27, in the 50 most populous counties.

Key findings:

1. **The two sources agree closely, but not completely, in every county.** Over every day for which both are complete, the county's and the state's lists of early in-person voters agree on 99.0% or more of voters in 32 of the 33 counties with dated county rosters, and on 98.7% in Guadalupe. In none of them do the two lists match exactly: every county has at least one voter on one list and not the other. (In this review a 100% figure is shown only when no voter is on one list and not the other.) Nine voters are an in-person voter in one source and a mail voter in the other (Hunt 5, and one each in Collin, Hidalgo, Cameron and Tom Green).
2. **October 27 is in for every county, and only Harris's file is partial.** All 50 counties have a state in-person file for each of October 19-27. Every file for October 19-26 is complete against the counties' own lists, now that the state has filled in Harris's October 26 (79,420 of the county's 79,474) and posted Webb's (3,446). For October 27, Harris's file holds 58,858 of the county's 75,248 voters; every other county's holds at least 90% of the county's count.
3. **The state keeps revising earlier days.** Since the evening of October 27, 192 county-day counts for October 14-26 changed in the state's files. 130 are mail counts (net -343 voters, 78 of them downward). The 62 in-person counts are net +40,690, almost all of it Harris's October 26 file filled in (+36,990) and Webb's posted (3,446); the other 60 net +254. The state moves mail ballots between days: Brazoria's October 20 mail rose from 1,190 to 1,651 while its October 19 fell from 249 to 5; Bastrop's October 20 rose from 389 to 742 while its October 19, 23 and 26 fell to 1 or 2; Williamson's October 23 fell from 504 to 125. The state also filled in its October 27 files during the day: Collin's grew from 5,332 to 28,304 records between the afternoon and evening downloads.
4. **Ten voters are recorded as voting in two counties.** New since the last review: one voter on Collin's in-person roster for October 23 and on Travis's for October 27 (same name). The state lists that voter only in its Travis October 23 file, with the Collin precinct. The other nine are unchanged (§6.8).
5. **Five more voters have both a mail ballot and an in-person vote, all voting in person on October 27:** three in Dallas, one in El Paso and one in Grayson, each with a mail ballot the county lists as received (October 5-24). Twenty-two voters are now listed both ways in the same county. The Denton case of the last review no longer appears: Denton's October 27 mail roster no longer lists that voter's mail ballot (§6.9).
6. **The turnout table still overstates Travis, Ellis, Hays, Coryell and Henderson.** For October 23 the portal's table shows 50,268 Travis in-person voters, against 40,484 in the state's own Travis file and 40,453 in Travis County's roster.
7. **Dallas's and Collin's mail lists have caught up.** Dallas's October 27 mail list now lacks 180 of the state's Dallas mail voters (1,172 a day earlier), and Collin's 291 (800). Newer lists that trail the state's: El Paso 276 (261 dated October 27 by the state; El Paso's latest list runs through October 26), Wichita 171 (115 dated October 27), Cameron 115 and Galveston 103 (91 each dated October 27).
8. **Two counties posted October 27 rosters that could not be read in full.** Guadalupe's October 27 in-person roster, posted October 28, is a new layout (a check-in report printed to PDF) that Election Explorer's loader does not yet read, so Guadalupe is compared for October 19-26. On one page of Gregg's October 27 list the rows are printed in pieces;

the loader misses two voters there and pairs the page's names with the wrong VUIDs, so the name comparisons on that page (86 records) are left out.

9. **Bexar's October 27 check-in list is named for 2028** ("10272028"). It is read as October 27, 2026, and agrees with the state's file on 41,841 county and 41,940 state voters.
10. **Williamson's mail precincts are still wrong.** Its October 27 file gives a precinct different from the state's for 4,685 mail voters (and one in-person voter).
11. **Bowie's October 20, 21 and 23 reports disagree with the state** on the precinct of 4,718 voters; its other reports match.
12. **The state's county files contain voters of other counties.** Across October 14-27, 1,988 voters (1,962 in-person, 26 mail) appear in an SOS county file while being on a different county's own roster, with that county's precinct.
13. **The state's files continue to name voters that Tarrant County redacts.** Tarrant's cumulative in-person list, which held fewer redacted records each day from 104 on October 20 to 47 in the afternoon file of October 27, held 53 in that evening's file.
14. **Records that warrant review by the counties** (none is proof of wrongdoing; most have clerical explanations):
    - 22 voters listed both as a returned mail ballot and as an early in-person voter in the same county (Dallas 8, El Paso 7, Grayson 2, Tarrant 2, Bastrop, Jefferson and Travis 1 each);
    - 45 VUIDs that name entirely different people in two records, 10 of them on Bell's roster;
    - 165 same-day duplicate check-ins in 11 counties (132 of them in Angelina), and 27 mail ballots listed as received on two days (11 in Bexar);
    - precinct differences besides Williamson and Bowie: Harris 1,606, Tarrant 211, Galveston 165, El Paso 130, Bexar 69, Smith 69.

2. Scope and method

Counties (by 2025 Census population):

- Ranks 1-20: Harris, Dallas, Tarrant, Bexar, Travis, Collin, Denton, Fort Bend, Hidalgo, El Paso, Montgomery, Williamson, Cameron, Brazoria, Bell, Galveston, Nueces, Lubbock, Hays, Webb.
- Ranks 21-50: McLennan, Jefferson, Smith, Brazos, Ellis, Johnson, Kaufman, Comal, Guadalupe, Midland, Parker, Ector, Grayson, Randall, Taylor, Rockwall, Wichita, Gregg, Hunt, Liberty, Tom Green, Bastrop, Potter, Bowie, Victoria, Henderson, Angelina, Orange, Coryell, Walker.

Sources:

- each county's own roster files, downloaded daily October 20-28. 34 counties post their own rosters, and all 34 are compared in the tables below (Guadalupe's mail lists are scanned images, so only its in-person rosters are compared). The other 16 (Nueces, Lubbock, Hays, Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker) link to the SOS portal;
- the SOS portal's per-county early voting CSVs for October 14-27, for all 50 counties, all days re-downloaded on the evening of October 28, since the state revises them (a second complete pass found no further change);
- the SOS turnout tables for October 19-27.

Method. All files were read with Election Explorer's roster loader, which normalizes each county's layout to VUID, precinct, name, voting method and date. For every county file, the number of VUIDs loaded matches an independent count of the 10-digit identifiers in the raw file exactly for 382 of the 387 files read. Of the other five: Dallas's and El Paso's October 27 files each hold one 10-digit number in an address, not a voter; one Travis mail workbook differs by one identifier, as in earlier reviews; in Guadalupe's October 26 roster the loader finds 18 VUIDs the independent count misses (the PDF prints them run together with the ZIP code) and keeps four rows without their VUID (a long address pushes it out of its column); and in Gregg's October 27 list the loader misses two voters on one page, where the PDF prints rows in pieces (§1, item 8). Guadalupe's October 27 roster, in a new layout, could not be read. Three corrections were made before comparing: Bexar's October 27 list, named "10272028", is dated October 27, 2026; Tom Green's roster posted October 28 (named "102626") holds 373 voters of

October 27, part of that day, which are left out; and 86 name-comparison records from the misread Gregg page are dropped. Angelina's lists were taken from its cumulative October 25 file and its October 26 file. The lists were then compared by VUID:

- *early in-person, by day*: the county's in-person voters for each of October 19-27 vs. the SOS's IN-PERSON voters for that date. For counties whose lists are cumulative and undated (Tarrant, Hidalgo, Denton, El Paso, Potter), each day was recovered from consecutive daily snapshots (a day's voters = that day's snapshot minus the previous day's). A day counts toward the totals only when both sources have it and the state's file holds at least 90% of the county's count;
- *mail*: the county's latest mail list (or all daily files) vs. the SOS's MAIL-IN voters for October 14-27.

"County-only" and "state-only" voters were checked against the other 49 counties' files. Name and precinct comparisons ignore formatting (case, spacing, leading zeros, "Precinct"/"P"/"S" prefixes, and a two-digit precinct split such as "418603" for precinct 4186). Voter names and VUIDs are deliberately not reproduced in this report; the companion supplement lists the VUIDs and file locations of the anomalies for county and state staff.

3. The Secretary of State portal

Where: "Election Information & Turnout Data", `https://goelect.txelections.civixapps.com/ivis-evr-ui/evr`. Pick an election and an early voting date, then *Submit*: a table of registered voters, in-person and mail turnout per county, with a **CSV Download** per county under *Voter Details Report*.

How the data is served. The page fetches JSON whose `upload` field is the file in base64:

Data	Request
Elections, early voting dates and county ids	`/api-ivis-system/api/v1/getFile?type=EVR_ELECTION`
Turnout table for one date	`/api-ivis-system/api/v1/getFile?type=EVR_EARLYVOTING&electionId=53815&electionDate=10/27/2026`
One county's voter CSV for one date	`/api-ivis-system/api/v1/getFileByFormat?type=EVR_EARLYVOTING&electionId=53815&countyId=<id>&county=<NAME>&electionDate=<MM/DD/YYYY>&format=CSV`

County ids follow alphabetical order, except that the portal sorts McLennan after McCulloch (id 161). An empty response means the county reported nothing for that day.

File contents. `VOTER_NAME` ("LAST, FIRST MIDDLE"), `ID_VOTER` (VUID), `VOTING_METHOD` (`IN-PERSON` / `MAIL-IN`), `PRECINCT`. There is **no address and no date column**. A county CSV holds only the voters credited on that date.

Timeliness and revisions. A day's files fill in over the following day or two. By the evening of October 28, all 50 counties had an in-person file for each of October 19-27; none of the files for October 19-26 is partial against the county's own count, and for October 27 only Harris's is (58,858 of 75,248). Nueces's October 27 file holds 1,889 voters, against 6,151 for October 26; Nueces posts no roster of its own to compare. Re-downloading every day for every county on the evening of October 28 changed 249 files for October 14-27 from the afternoon download. Compared with the files used in the October 27 review, 192 county-day counts for October 14-26 differ: 130 mail counts (net -343 voters, 78 of them downward) and 62 in-person counts (net +40,690, of which Harris's October 26 file +36,990 and Webb's newly posted October 26 file 3,446; 7 downward). The state re-dates mail ballots as well as adding them: Brazoria's October 20 mail rose from 1,190 to 1,651 and its October 26 from 184 to 382, while its October 19 fell from 249 to 5 and its October 15 from 59 to 3; Bastrop's October 20 rose from 389 to 742, while its October 19, 23 and 26 fell from 55, 74 and 77 to 1 or 2; Lubbock's October 20 rose from 57 to 354; Williamson's October 23 fell from 504 to 125; Jefferson's October 26 fell from 215 to 47; Comal's October 15 fell from 119 to 8. The October 27 files themselves grew between the afternoon and evening downloads of October 28: Collin from 5,332 to 28,304 records, Comal from 6,086 to 6,373 and Cameron from 5,552 to 5,635.

Mail dates. The date of an SOS mail file is not the day the county received the ballot, and the state moves ballots from one day's file to another. In Travis, the state's October 16 mail voters are almost all ballots the county lists as received October 13, and its October 19 mail voters mostly the county's October 14 ballots. Mail comparisons in this review are therefore made over all days together.

Turnout table vs. CSVs. The statewide table now shows 784,391 in-person voters for October 19, 745,469 for October 20, 683,419 for October 21, 633,676 for October 22, 698,904 for October 23, 518,051 for October 24, 268,407 for October 25,

582,983 for October 26 and 531,399 for October 27. It agrees with the state's CSVs for every county and day except Travis (October 23: table 50,268, CSV 40,484), Ellis (October 23: 8,108 vs. 6,326), Hays (October 22: 10,861 vs. 8,791), Coryell (October 20: 1,867 vs. 1,442) and Henderson (October 25: 513 vs. 441).

Name formatting. The SOS appends name suffixes to the middle name without a space ("RAYJR"), which causes apparent name mismatches against county files.

4. How each county posts its rosters

"Cumulative" means each new file contains the earlier ones; "daily" means each file holds only that day.

4.1 Counties 1-20

County	Where	Format	Granularity	Voting date per voter	Download daily?
Harris	harrisvotes.com, Election Rosters	ZIP of CSV	Early voting one CSV per day, all in one ZIP replaced daily; mail cumulative	Yes	Recommended
Dallas	dallascountyvotes.org, election page	XLSX (CSV on October 21 only)	Cumulative, with earlier days revised; file names change often ("Early-Voting-Turnout-Details_10.27.26")	Yes	Recommended
Tarrant	tarrantcountytx.gov, current election	ZIP of TSV	Cumulative, same file name; files for the current day posted the same evening	Mail yes; **early voting no**	**Yes**
Bexar	elections.bexar.gov Document Center	PDF	Daily; the October 27 check-in list is named "10272028"	Yes	No
Travis	votetravis.gov, one ZIP of daily workbooks	ZIP of XLSX	Daily workbooks in one ZIP, replaced each morning and again in the evening	Yes	No
Collin	collincountytx.gov/Elections/rosters	XLSX	Cumulative, posted the same evening; the mail list "through October 27" ends with ballots received October 26	Yes	Recommended
Denton	votedenton.gov, rosters page	XLSX	Early voting cumulative, **undated from October 20**, posted the same evening; mail cumulative	October 19 only	**Yes**
Fort Bend	fortbendcountytx.gov, Early Voting Statistics	XLSX	Cumulative from October 21	Yes	Recommended
Hidalgo	hidalgocounty.us Document Center (updated in place)	CSV / XLSX	Cumulative	**No**	**Yes**

County	Where	Format	Granularity	Voting date per voter	Download daily?
El Paso	epcountyvotestx.gov, Current Election	CSV (mail), XLSX	Mail cumulative (latest through October 26); early voting **cumulative from day 2, undated**	Mail yes; early voting no	**Yes**
Montgomery	elections.mctx.org, Early Voting Roster	ZIP of CSV per day	Daily	Yes	No
Williamson	wilcotx.gov Document Center (one document replaced)	XLSX	Cumulative, posted the same evening	Yes	Recommended
Cameron	cameroncountytx.gov, Elections results	XLSX (per jurisdiction)	Cumulative, replaced; mail list through October 26	Yes	Recommended
Brazoria	brazoriacountyclerktx.gov, Voter Lists	XLSX	Daily; earlier days' files re-posted (October 21 and 22 and the September 28-October 16 mail list again on October 28)	Yes	No
Bell	bellcountytx.com, Daily Early Voting Reports	PDF	Daily, posted the same evening	Yes	No
Galveston	galvestonvotes.org, Current Elections	CSV (mail), XLSX	Daily; latest mail list through October 26	Yes	No
Webb	webbcountytx.gov, Daily Voted List	PDF	Daily, posted the same day	Yes	No
Nueces, Lubbock, Hays	link to the SOS portal	SOS CSV	Daily (SOS)	File date	Re-download periodically

4.2 Counties 21-50

County	Own roster	Format and posting
McLennan	Yes	One PDF list of early voters, replaced each evening under a timestamped name; no method or date per voter
Jefferson	Yes	Excel 97-2003 (.xls) files on jeffcotxvotes.gov: one in-person list per day (VUID and name only) and a cumulative mail list renamed for the day it runs through (latest: through October 27, under a new name pattern); nine in-person rows mask the VUID as "**********"
Smith	Yes	Daily PDFs in a Laserfiche public portal; in-person lists daily, absentee lists cumulative
Brazos	Yes	Daily PDFs
Grayson	Yes	Daily XLSX check-in reports and absentee lists
Randall	Yes	Two PDFs re-posted daily (cumulative early voting roster with check-in time; mail roster printed sideways)

County	Own roster	Format and posting
Wichita	Yes	PDFs behind a bot challenge that blocks automated downloads (downloaded by hand: check-ins through October 27, absentee list of October 27); daily check-ins, cumulative absentee lists every few days
Gregg	Yes	PDFs (check-ins, mail list); October 21 still not posted; latest mail list October 24-25; one page of the October 27 list printed with rows in pieces
Hunt	Yes	PDFs; cumulative through October 20, daily from October 21; mail ballots appear in the October 23 and 24 lists with "BBM" as the polling place; dates written "10.24.26" from October 24
Tom Green	Yes	PDFs; the roster and mail list are cumulative and named for the day before they are posted: the October 28 posting ("102626") runs through October 26 and holds part of October 27
Bastrop	Yes	Daily CSVs, posted the same evening; mail CSV re-posted under a new name each day
Potter	Yes	Two PDFs replaced daily after the polls close; early voting roster cumulative and undated
Bowie	Yes	Daily PDFs (ballots by mail received, early vote history with precinct); two ballots-by-mail lists for October 27, the second (posted October 28) containing the first
Victoria	Yes	One PDF and XLSX ("mail and in person"), cumulative, posted under each day's date; its mail ballots stop at October 23
Henderson	Yes	Daily PDFs; layout changed October 23 (Voter_ID, Voter_Name, Voting Precinct, Timestamp or Date; the October 25 list titled "Voter Turnout")
Angelina	Yes	Daily PDFs (early voting history); no mail list; October 23-26 posted together October 27, the October 25 file cumulative (October 19-25); nothing for October 27 by October 28 afternoon
Guadalupe	Yes	Returned-mail PDFs, scanned images (not machine-readable); in-person rosters for each day, October 19-26 in one layout and October 27 (posted October 28) in another, a check-in report printed to PDF
Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker	No	Link to the SOS portal

5. County data compared with state data

5.1 Early in-person voters by day

Counts are distinct VUIDs (county voters without a VUID are excluded). "On both", "County only" and "State only" add up the days on which both sources are complete. "Agree" is the voters on both lists as a share of the larger list; it is 100% only when the county-only and state-only counts are both 0, and otherwise is rounded down (to two decimals from 99.9%), so a near-match is never shown as 100%. Hunt's October 23 and 24 counts exclude its mail ballots. McLennan's list (43,240 voters, posted the evening of October 27) contains all but 93 of the state's 42,096 McLennan in-person and mail voters for October 14-27. Potter's first two snapshots were posted on the same day, so its October 19 and 20 cannot be separated. Harris's October 27 (the state's file is partial) is left out of its totals. Not posted or not read: Gregg's October 21, Tom Green's October 27 (part of the day only), Angelina's October 27 and Guadalupe's October 27 (a new layout).

Most state-only voters are voters of other counties (§6.1) or, in Tarrant, voters the county lists a day later than the state (99 on October 19, 49 on October 20) and redacted voters (§6.2). Most county-only voters are a few dozen to a few hundred per day that the state has not received.

5.2 Mail ballots

The SOS mail data begins October 14 and is dated by when the state received it, days after the county, and the state moves ballots between days (§3); county mail lists go back to the first ballots received (September 21-22).

Webb	664	630	580	50 (49 dated Oct 14)
Hunt	361	665	339	326 (316 dated Oct 14-19)

Brazos (1,696 in the county's lists) has 9 mail ballots at the state. McLennan's list does not separate mail voters; the state has 1,484 McLennan mail voters, all but 15 of them on McLennan's list. Henderson and Angelina post no mail list and Guadalupe's mail lists are scanned images; the state has 302, 797 and 797 mail voters for them.

For these 16 counties the state is the only machine-readable published source. All 16 have state files for each of October 19-27. All report mail ballots (Ector only 2). Nueces's October 25 file holds 534 voters and its October 27 file 1,889, against 5,569 for October 24 and 6,151 for October 26; the turnout table shows the same figures.

6. Anomalies between county and state data

6.1 State county files include voters of other counties

Across October 14-27, 1,988 voters (1,962 in-person, 26 mail) in the SOS county files appear on a different county's own roster, with the same first name and that county's precinct. The largest numbers are in the SOS files for Travis (207), Dallas (190), Denton (179), Bexar (166), Collin (110), Hays (88), Johnson (85), Tarrant (80), Harris (77) and Parker (73). No voter appears in two SOS county files, so these are records assigned to the wrong county's file, not duplicates. Anyone using SOS county files alone will slightly overcount each county.

6.2 State files identify voters Tarrant County redacts

Tarrant replaces the name, VUID and address of protected voters with "–Redacted–", keeping only precinct and date: 235 records in its current files (182 mail, 53 early in-person). No other county redacts identities; Harris hides the address (only) of

2,927 named voters.

- **Mail:** the SOS Tarrant mail files list 148 mail voters who are not on Tarrant's mail roster (after excluding one voter of another county). For 128 of them there is a redacted Tarrant mail record with the same precinct and the same date.
- **In person:** the SOS Tarrant files list 89 in-person voters (besides 79 of other counties) who are not on Tarrant's roster on any day; 52 of them match a redacted Tarrant in-person record by precinct.
- **Redacted counts:** Tarrant's cumulative in-person list held 104 redacted records on October 20, falling each day to 47 in the afternoon file of October 27, then 53 in the evening file of October 27 (the list through October 27); its cumulative mail list held 215 in the October 23 afternoon file, 202 in the evening file, 192 on October 25, 186 on October 27 and 182 in the October 27 evening file. A cumulative list should not shrink.

With nine days of data, the match remains close for both voting methods. This continues to indicate that the state publishes the name, VUID and precinct of voters whose identities Tarrant withholds. It cannot be proven record by record, because the redacted rows carry no identifier. Neither source exposes an address.

6.3 Reporting gaps in the state data

- **In-person:** every county has a state file for every day of October 19-27; all files for October 19-26 are complete against the counties' own lists, and for October 27 Harris's is partial (58,858 of 75,248). Two earlier days remain partial: Gregg's October 19 (2 of 3,677) and Hunt's October 20 (1,724 of 2,044). Nueces's October 25 and 27 files are small (534 and 1,889 voters).
- **Mail:** Brazos (9 of 1,696) and Ector (2) report almost none to the state.
- **Turnout table vs. CSV:** Travis, Ellis, Hays, Coryell and Henderson (§3).

6.4 Mail ballots in state data but not in the county's mail list

- **Dallas and Collin:** 180 state mail voters (besides one voter of another county) are not on Dallas's October 27 mail list, down from 1,172 against the October 26 list. Collin's list "through October 27" lacks 291, 216 of them dated October 27 by the state; the list's latest ballots are dated October 26.
- **Lists not yet updated:** El Paso 276 (261 dated October 27 by the state; its latest list runs through October 26), Wichita 171 (115 dated October 27, 38 October 26), Cameron 115 (91 dated October 27; list through October 26), Galveston 101 (91 dated October 27; list through October 26), Gregg 89 (39 dated October 27 and 34 October 26; latest list October 24-25), Victoria 86 (41 dated October 26 and 24 October 27; its mail ballots stop at October 23) and Tom Green 26 (12 dated October 27) include ballots dated after the county's latest list.
- **Hunt:** the state has 665 Hunt mail voters, the county's files 361 (its mail lists and the October 23 and 24 "BBM" rows); 326 state mail voters are in neither, 316 of them dated October 14-19 by the state.
- **Travis:** 192 state mail voters are on none of Travis's lists (97 dated October 26, 56 October 19 and 24 October 22 by the state).
- **Elsewhere:** Harris 229 (35 dated October 25, 32 October 26, 28 October 27), Montgomery 145, Bexar 141 (83 dated October 15), Bell 131, Webb 50 (49 dated October 14), Fort Bend 40, Bowie 38, Smith 29, Denton 17, Brazoria 10, Williamson 10, Jefferson 6, Randall 5, Hidalgo 3, Grayson 2 and Bastrop 1.

6.5 Precinct differences

- **Williamson:** the October 27 file, like the October 22-26 files, gives a precinct different from the state's for its mail voters (4,685); the October 21 file matched the state for all of them. One in-person row differs as well. The county's mail precinct column appears to have been scrambled since October 22.
- **Bowie:** the October 20, 21 and 23 early vote reports give a precinct that differs from the state's for 1,566, 1,711 and 1,441 voters (4,718); the October 22 and 24-27 reports match for all voters. The values were checked against the PDFs.
- **Bexar:** 65 voters in the October 22 check-in report (one or none in each other report).
- **Elsewhere,** on matched voters: Harris 1,606 (1,554 in-person), Tarrant 211, Galveston 165 (111 of them in its October 19 file), El Paso 130 (all in-person), Smith 69, Montgomery 15, Hunt 14, Travis 8, Denton 7, Potter 4, Bastrop and Brazoria 3

each, Dallas 2, and one each in Cameron and Henderson.

Denton and Gregg write the precinct with a two-digit split appended ("418603" for 4186); this is formatting, not a difference.

6.6 Surnames

On matched voters, the surname differs between the county and the state in 102 Collin, 57 Tarrant, 51 Bexar, 45 Denton, 39 Cameron and 34 Williamson records, and in 28 or fewer elsewhere (615 in all, not counting the misread Gregg page). In all but 20 of these records the two names share at least one name: they are name changes recorded in one system and not the other, or formatting (counties that write names "FIRST MIDDLE LAST").

6.7 One VUID, two different people

- **Within one county's files:** one VUID is listed for two different voters in Harris's cumulative mail file, in Bowie's October 22 and October 24 mail lists, and, new, on two rows of Brazoria's October 27 mail list and two rows of Galveston's October 27 check-ins; and for two different people checking in at Bexar on October 19 and October 23.
- **On two counties' rosters:** one VUID is a mail ballot received October 21 on both Bell's and Randall's mail lists, for two people with different names.
- **SOS file vs. a county roster:** 41 VUIDs name a voter in an SOS file and an entirely different person (no name in common) on a county's roster. Twenty are within one county (Harris 5, Bexar 3, Brazoria, Dallas, Montgomery and Tarrant 2 each, and Bowie, Collin, Denton and El Paso 1 each). Twenty-one are across counties: ten on Bell's roster (against the SOS Coryell (3), Fort Bend (2), Randall (2, one of them new in Bell's October 27 mail list), Lubbock, Victoria and Wichita files), three on Denton's roster against the SOS Dallas (2) and Tarrant files, two on Harris's against the SOS Bell and Hidalgo files, two on El Paso's against the SOS Harris and Montgomery files, and one each on Dallas's against Collin, Tarrant's against Hidalgo, McLennan's against Montgomery and, new, Collin's against Tom Green.

Sixteen of the cross-county VUIDs, including all ten on Bell's roster, are recent registrations in one numeric range (2223365544-2223382143). Bell County's roster gives these VUIDs to different people than the state's files do, so the Bell County Elections office and the SOS should compare them first.

6.8 One voter in two counties' own rosters

Nine are the same person in both counties (same first and last name); one has the same first name and a different last name:

Counties	First county	Second county	State's files
Tarrant, Smith	in person, in Tarrant's list from October 20 (precinct 1224)	in person October 22 (Smith precinct 245)	SOS Smith October 20 file, with the Tarrant precinct
Tarrant, Dallas	in person, in Tarrant's list from October 22 (precinct 1010)	in person October 23 (Dallas precinct 1146)	SOS Dallas October 22 file, with the Tarrant precinct
El Paso, Bexar	in person, in El Paso's list from October 21 (precinct 164)	in person October 24 (Bexar precinct 4031)	SOS Bexar October 21 file, with the El Paso precinct
Hidalgo, Bexar	in person, in Hidalgo's list from October 23 (precinct 151)	in person October 23 (Bexar precinct 2143)	SOS Bexar October 23 file, with the Hidalgo precinct
Harris, Travis	mail ballot received September 30	in person October 23	SOS Travis October 23 file (in person)
Bexar, Webb	in person October 19	in person October 19	reported since October 20
Cameron, Hidalgo	mail ballot received October 13	mail ballot (no date)	reported since October 20
Bexar, Cameron	in person October 19 (Bexar precinct 1045.01)	in person October 25 (Cameron precinct 21)	SOS Cameron October 25 file only; not in the SOS Bexar files (different last name)
Smith, Guadalupe	in person October 19 (Smith precinct 242)	in person October 21 (Guadalupe precinct 406)	SOS Smith October 19 file only; not in the SOS Guadalupe files

Counties	First county	Second county	State's files
Collin, Travis (new)	in person October 23 (Collin precinct 90)	in person October 27 (Travis precinct 203)	SOS Travis October 23 file only, with the Collin precinct; not in the SOS Collin or Travis October 27 files

6.9 Mail ballot and in-person vote by the same voter

Twenty-two voters are listed both as a returned mail ballot and as an early in-person voter in the same county (five new since the last review, all voting in person on October 27; the Denton case of the last review no longer appears, because Denton's October 27 mail roster no longer lists that voter's mail ballot):

- **Dallas 8:** mail October 9 and in person October 19, 20 and 22; one voter in person October 19 and one in person October 26 whose mail ballots are listed as received October 24; and, new, three voters who voted in person October 27, one with a mail ballot listed as received October 9 and two October 24.
- **El Paso 7:** mail returned October 6-20; in person by October 19 (2), October 21 (2), October 22 (1) and October 26 (1); and, new, one voter whose mail ballot is listed as returned October 20 who voted in person October 27.
- **Grayson 2:** mail October 2, in person October 20; and, new, mail October 5, in person October 27.
- **Tarrant 2:** in person by October 19 and by October 20; mail ballots recorded October 21 and 22.
- **Bastrop 1:** mail October 16; in person October 22.
- **Jefferson 1:** on the cumulative mail list; in person October 20. The state lists only the in-person vote.
- **Travis 1:** mail October 7; in person October 21.

A voter whose mail ballot has been accepted may not vote in person; these may be cancelled mail ballots, provisional votes or data errors.

6.10 Duplicates within county files

- **Same-day duplicate check-ins:** Angelina 132 (all in the history files posted October 27, each listed two or three times with the same precinct), Grayson 8, Bexar 6, Collin 4, Guadalupe 4, Dallas 3, Jefferson 3, Galveston 2, and 1 each in Tom Green, Travis and Webb. Jefferson also lists one VUID in its October 20 and October 23 in-person files (the state lists only October 20).
- **Mail ballot received twice:** 11 Bexar voters appear on two days' received-ballot lists; Travis 6, Montgomery 3, Gregg 2, and 1 each in Bowie, Brazoria, Brazos, Galveston and Harris. (Bastrop's five of the last review no longer appear in its new mail CSV.)

6.11 Identifiers that are not state VUIDs

County	Records	ID length	Lists
Tarrant	462	8 digits (one 7)	mail (337), in-person (125)
Collin	389	6, 7, 9 digits	in-person (280), mail (106), provisional (3)
Denton	179	7 digits	in-person (178), mail (1)
El Paso	69	7 digits	mail (57), in-person (12)
Grayson	67	6, 8, 9 digits	in-person (57), mail (10)
Guadalupe	59	7 digits (one 8)	in-person
Hidalgo	56	8-9 digits	mail (40), in-person (16)
Smith	34	7 digits (one 8)	in-person
Webb	32	8 digits	mail (25), in-person (7)
Gregg	17	6, 7, 11 digits	in-person

County	Records	ID length	Lists
Jefferson	16	6, 7, 8, 9, 11 digits	in-person
Bexar	8	8, 9, 11 digits	in-person
Bowie	8	9 or 11 digits	mail
Tom Green	3	9 digits	mail
Henderson	1	8 digits	in-person

These are likely county-internal numbers for voters whose state VUID had not been assigned or synchronized, or (for the 9- and 11-digit cases) a VUID with a digit missing or added. The state files contain none, so these voters cannot be matched by ID; for 22 of them the state lists a voter with the same name and precinct under a 10-digit VUID (see the supplement). Jefferson also masks nine VUIDs as "**********" (the names are shown).

7. Other county data quality notes

- **Blank VUIDs** (named voters with no ID): Harris 521 mail ballots; Collin 388 (364 provisional); Guadalupe 158 in-person; Grayson 107 in-person; Bell 30 mail; Dallas 23; Hunt 19; Bexar 18 in-person; Fort Bend 10 mail; Jefferson 9 (masked); Wichita 9; Montgomery 3; Bastrop and Hidalgo 2; Brazoria, Gregg and Randall 1. Travis's 1,278 and Montgomery's 325 Limited Ballot voters have no VUID by design. Tarrant's 235 redacted records also have no VUID (§6.2).
- **No voting date:** Tarrant's, Hidalgo's and Potter's early voting lists, Denton's from October 20, El Paso's from day 2 and McLennan's list carry no date per voter. Jefferson's lists carry neither date nor precinct (the in-person date is the file's). Smith's, Wichita's and Jefferson's mail lists are cumulative, so the date in their file names is the list date.
- **Not yet posted** by October 28 afternoon: Gregg's October 21 roster; Angelina's October 27; the complete October 27 for Tom Green. Mail lists that stop before October 26: Victoria (ballots through October 23) and Gregg (October 24-25).
- **Files replaced or re-posted:** Victoria, Potter, Tom Green and Jefferson (mail) post cumulative files; Randall re-posts its two rosters; McLennan posts one list under a new timestamped name; Bastrop renames its mail CSV daily; Brazoria re-posts earlier days' lists; Travis replaces its ZIP each morning and evening; Bowie posted a second, larger list of mail ballots received October 27; Angelina posted a cumulative October 25 file beside its daily files.
- **Same-day posting:** Collin, Denton, Webb, McLennan, Potter, Randall, Bastrop, Tarrant, Bexar, Bell, Bowie, Cameron, Williamson, Victoria, Gregg, Brazoria and Travis post lists for the current day during that day or that evening; they may change when re-posted. This review used each county's files for October 27 and earlier, as posted by the afternoon of October 28.
- **Hard-to-read formats:** Guadalupe's mail lists are scanned images, its in-person rosters print some VUIDs run together with the ZIP code, and its October 27 roster is in a new layout; Gregg prints long polling-place names past their cells, and one page of its October 27 list in pieces; Wichita's PDFs sit behind a bot challenge and wrap each absentee record onto two lines; Smith's lists are in a JavaScript document portal; Randall prints its mail roster sideways; Grayson's check-in workbook is a printed report with its column titles on separate rows; Jefferson posts Excel 97-2003 (.xls) files and renamed its mail list; Hunt changed its date format on October 24; Henderson changed its layout on October 23 and its title on October 25; Bexar misdated its October 27 file name.

8. Recommendations

1. **Download daily** through Election Day: Tarrant, Hidalgo, Denton, El Paso and Potter (no voting date per voter), Victoria, Tom Green, Jefferson and McLennan (cumulative files replaced), and Collin, Williamson, Cameron, Dallas, Fort Bend and Harris (latest file only). Save same-named files with the download time.
2. **Prefer county files** for counts and voter lists; use the SOS portal for the 16 counties that post nothing else and as a cross-check. Re-download every SOS day before each comparison, since the state fills in, revises and re-dates them, and do not read SOS mail dates as received dates or the turnout table as a substitute for the county CSVs.
3. **When using SOS county files,** expect voters of other counties in each file (§6.1) and check them against neighboring counties before treating them as anomalies.

4. **Refer to the counties:**
    - the ten voters recorded in two counties (§6.8), first the Collin/Travis voter of October 23 and 27;
    - the 22 voters with both a mail ballot and an in-person vote, first the five who voted in person on October 27;
    - the shared VUIDs (§6.7), first those on Bell's roster;
    - Williamson's mail precincts since October 22, and Bowie's October 20, 21 and 23 precincts;
    - Angelina's repeated check-ins in the files posted October 27;
    - Hunt's mail ballots in its in-person lists;
    - Bexar's mail ballots received twice;
    - the precinct differences in Harris, Tarrant, Galveston, El Paso, Bexar and Smith;
    - the mail lists that trail the state's (El Paso, Wichita, Cameron, Galveston, Gregg, Victoria).
5. **Refer to Tarrant County and the Secretary of State:**
    - the publication by the SOS of voters Tarrant redacts, and the changing counts of redacted records (§6.2);
    - the SOS files' inclusion of other counties' voters (§6.1), including the votes filed under a second county in §6.8;
    - the re-dating of mail ballots between daily files (§3);
    - the turnout table's Travis, Ellis, Hays, Coryell and Henderson figures (§3).
6. **Repeat this comparison** after early voting closes and after the canvass.

Appendix A. Files

Downloaded files are saved per county:

- county files are saved as `G26_<county file name>`; files a county posts under the same name every day get the download date (`_2026-10-28`), or the download date and time (`_2026-10-28-13-10-07`) for cumulative lists that carry no voting dates (Hidalgo, Potter);
- SOS files are saved as `G26_<COUNTY>.2026 NOVEMBER GENERAL ELECTION.EarlyVoting.<MM_DD_YYYY>.csv`; when the state revises a day, the earlier copy is kept.

The files load in Election Explorer (File → Load Voter Roster); the comparisons in this report were produced from the loader's normalized output. The companion supplement (`Texas_Early_Voting_Roster_Review_2026-10-28_Supplement`) lists each anomalous record's VUID and its location in the county's and the state's files.

Appendix B. Caveats

- In-person comparisons cover October 19-27; where the state's file for a day is partial or missing, that day is shown but left out of the totals.
- County files were downloaded October 20-28 at different times; several counties post same-day lists that are later replaced, and counties keep revising earlier days. The state files were re-downloaded about seven hours after the county files on October 28.
- Day-level counts for cumulative, undated county lists were recovered from consecutive snapshots and attribute voters added late to the day they first appear (Tarrant, §5.1).
- A match between two records means the same VUID; name and precinct differences were checked separately. A match by name, precinct or date without a common VUID (§6.2, §6.11) is an inference, not a confirmed identity.
- This review describes data as published. It does not establish that any voter voted improperly; the records flagged in §6.5-§6.10 have ordinary clerical explanations as well as serious ones, and only the counties can resolve them.
