Texas Early Voting Rosters: County and State Data Review

Election: November 3, 2026 General Election
Data through: Wednesday, October 28, 2026 (tenth day of in-person early voting)
Prepared: October 29, 2026 (updates the reviews of October 20-28; county files as posted by 2:00 PM October 29, with Wichita's latest files downloaded by hand that afternoon; state files as posted by 8:00 PM October 29)
Scope: the 50 most populous Texas counties and the Texas Secretary of State (SOS) roster portal

1. Summary

Texas Election Code §87.121 requires each county to post its early voting rosters (in-person and by mail) daily and to submit them for statewide elections to the Secretary of State, which republishes them. This update compares the county and state lists voter by voter (by Voter Unique Identifier, VUID) for the first ten days of in-person voting, October 19-28, in the 50 most populous counties.
Key findings:

1. **The two sources agree closely, but not completely, in every county.** Over every day for which both are complete, the county's and the state's lists of early in-person voters agree on 99.0% or more of voters in 32 of the 33 counties with dated county rosters, and on 98.6% in Guadalupe. In none of them do the two lists match exactly: every county has at least one voter on one list and not the other. (In this review a 100% figure is shown only when no voter is on one list and not the other.) Eleven voters are an in-person voter in one source and a mail voter in the other (Hunt 5, Collin 4, and one each in Hidalgo and Cameron).
2. **October 28 is in for every county, and only Harris's file is partial.** All 50 counties have a state in-person file for each of October 19-28. The state has filled in Harris's October 27 file (75,185 of the county's 75,247 voters). For October 28, Harris's file holds 32,078 of the county's 78,747 voters; every other county's holds at least 97% of the county's count.
3. **The state keeps revising earlier days.** Since the evening of October 28, 181 county-day counts for October 14-27 changed in the state's files. 125 are mail counts (net +793 voters, 63 of them downward). The 56 in-person counts are net +16,862, almost all of it Harris's October 27 file filled in (+16,327); the other 55 net +535. The state again moved mail ballots between days: Brazoria's October 26 mail rose from 382 to 649 and its October 20 from 1,651 to 1,867, while its October 21-24 fell to about a third (from 88, 117, 77 and 74 to 31, 39, 24 and 21); Williamson's October 23 fell from 125 to 36 and Lubbock's October 15 from 177 to 101. The October 28 files filled in during the day: between the afternoon and evening downloads Collin's grew from 3,447 to 27,619 records, Denton's from 13 to 21,839, Fort Bend's from 1,877 to 18,792 and Harris's from 4,814 to 33,754.
4. **Thirteen voters are recorded as voting in two counties.** New since the last review: two voters on Tarrant's cumulative in-person list from October 28 who are on Bexar's roster for October 20 and on El Paso's list from October 25 (same names), and one voter on Hidalgo's list from October 28 who is on Bexar's roster for October 25 (same first name, different last name). The state lists each of the three only in the first county's file (Bexar, El Paso, Bexar). The other ten are unchanged (§6.8).
5. **Seven more voters have both a mail ballot and an in-person vote:** five in Dallas who voted in person on October 28, with mail ballots the county lists as received October 24 (3) or October 25 (2), and two in Tom Green who voted in person on October 27 (mail ballots received September 30 and October 5), found now that Tom Green's roster holds all of October 27. The state lists only the in-person vote for six of the seven. Twenty-nine voters are now listed both ways in the same county (§6.9).
6. **The turnout table still overstates Travis, Ellis, Hays, Coryell and Henderson.** For October 23 the portal's table shows 50,268 Travis in-person voters, against 40,484 in the state's own Travis file and 40,453 in Travis County's roster.
7. **Collin's and Victoria's mail lists have caught up.** Collin's October 28 mail list lacks 23 of the state's Collin mail voters (291 a day earlier), and Victoria's, whose mail ballots stopped at October 23 until now, lacks 11. Lists that trail the state's: Cameron 210 (97 dated October 28 and 83 October 27 by the state; Cameron's latest list runs through October 27), El Paso 193 (176 dated October 28; latest list through October 27), Gregg 140 (latest list October 24-25), Galveston 103 (91 dated October 27, though its list runs through October 28) and Wichita 78 (72 dated October 28).
8. **New file formats.** Dallas now posts its in-person details as a CSV with no date in its name (488,019 records, read in full). Webb's October 28 mail list gives a county "Certificate" number in place of the VUID, so it cannot be matched to the state's records; Webb's mail is compared through its October 27 list. Guadalupe's October 27 roster and the page of Gregg's October 27 list that the last review could not read are now read in full, after updates to Election Explorer's loader.
9. **Bexar's October 28 check-in list is again named for 2028** ("10282028"). It is read as October 28, 2026, and agrees with the state's file on 41,138 county and 41,217 state voters.

10. **Williamson's mail precincts are still wrong.** Its October 28 file gives a precinct different from the state's for 4,685 mail voters (and one in-person voter).
11. **Bowie's October 20, 21 and 23 reports disagree with the state** on the precinct of 4,718 voters; its other reports match.
12. **The state's county files contain voters of other counties.** Across October 14-28, 2,236 voters (2,200 in-person, 36 mail) appear in an SOS county file while being on a different county's own roster, with that county's precinct.
13. **The state's files continue to name voters that Tarrant County redacts.** Tarrant's cumulative in-person list held 53 redacted records on October 29 (the list through October 28), as on the evening of October 27; its cumulative mail list held 175, down from 182.
14. **Records that warrant review by the counties** (none is proof of wrongdoing; most have clerical explanations):
    - 29 voters listed both as a returned mail ballot and as an early in-person voter in the same county (Dallas 13, El Paso 7, Grayson 2, Tarrant 2, Tom Green 2, Bastrop, Jefferson and Travis 1 each);
    - 56 VUIDs that name entirely different people in two records, 10 of them on Bell's roster;
    - 183 same-day duplicate check-ins in 11 counties (149 of them in Angelina), and 28 mail ballots listed as received on two days (11 in Bexar);
    - precinct differences besides Williamson and Bowie: Harris 1,787, Tarrant 237, Galveston 178, El Paso 172, Smith 84, Bexar 69.

2. Scope and method

Counties (by 2025 Census population):

- Ranks 1-20: Harris, Dallas, Tarrant, Bexar, Travis, Collin, Denton, Fort Bend, Hidalgo, El Paso, Montgomery, Williamson, Cameron, Brazoria, Bell, Galveston, Nueces, Lubbock, Hays, Webb.
- Ranks 21-50: McLennan, Jefferson, Smith, Brazos, Ellis, Johnson, Kaufman, Comal, Guadalupe, Midland, Parker, Ector, Grayson, Randall, Taylor, Rockwall, Wichita, Gregg, Hunt, Liberty, Tom Green, Bastrop, Potter, Bowie, Victoria, Henderson, Angelina, Orange, Coryell, Walker.

Sources:

- each county's own roster files, downloaded daily October 20-29. 34 counties post their own rosters, and all 34 are compared in the tables below (Guadalupe's mail lists are scanned images, so only its in-person rosters are compared). The other 16 (Nueces, Lubbock, Hays, Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker) link to the SOS portal;
- the SOS portal's per-county early voting CSVs for October 14-28, for all 50 counties, all days re-downloaded on the evening of October 29, since the state revises them (a second complete pass found no further change);
- the SOS turnout tables for October 19-28.

Method. All files were read with Election Explorer's roster loader, which normalizes each county's layout to VUID, precinct, name, voting method and date. For every county file, the number of VUIDs loaded matches an independent count of the 10-digit identifiers in the raw file exactly for 408 of the 413 files read. Of the other five: Dallas's new CSV and El Paso's October 28 file each hold one 10-digit number in an address, not a voter; one Travis mail workbook differs by one identifier, as in earlier reviews; in Guadalupe's October 26 roster the loader finds 14 VUIDs the independent count misses (the PDF prints them run together with the ZIP code); and in its October 27 roster, the loader keeps 20 rows without a VUID, and the independent count finds 12 more VUIDs than the loader reads. Webb's October 28 mail list, which has no VUIDs, is not compared. One correction was made before comparing: Tom Green's roster posted October 29 (named "102826") holds 330 voters of October 29, part of that day, which are left out. Angelina's lists were taken from its cumulative October 25 file and its October 26, 27 and 28 files. The lists were then compared by VUID:

- *early in-person, by day*: the county's in-person voters for each of October 19-28 vs. the SOS's IN-PERSON voters for that date. For counties whose lists are cumulative and undated (Tarrant, Hidalgo, Denton, El Paso, Potter), each day was recovered from consecutive daily snapshots (a day's voters = that day's snapshot minus the previous day's). A day counts toward the totals only when both sources have it and the state's file holds at least 90% of the county's count;
- *mail*: the county's latest mail list (or all daily files) vs. the SOS's MAIL-IN voters for October 14-28.

"County-only" and "state-only" voters were checked against the other 49 counties' files. Name and precinct comparisons ignore formatting (case, spacing, leading zeros, "Precinct"/"P"/"S" prefixes, and a two-digit precinct split such as "418603" for precinct 4186).

Voter names and VUIDs are deliberately not reproduced in this report; the companion supplement lists the VUIDs and file locations of the anomalies for county and state staff.

3. The Secretary of State portal

Where: "Election Information & Turnout Data", `https://goelect.txelections.civixapps.com/ivis-evr-ui/evr`. Pick an election and an early voting date, then *Submit*: a table of registered voters, in-person and mail turnout per county, with a **CSV Download** per county under *Voter Details Report*.

How the data is served. The page fetches JSON whose `upload` field is the file in base64:

Data	Request
Elections, early voting dates and county ids	`/api-ivis-system/api/v1/getFile?type=EVR_ELECTION`
Turnout table for one date	`/api-ivis-system/api/v1/getFile?type=EVR_EARLYVOTING&electionId=53815&electionDate=10/28/2026`
One county's voter CSV for one date	`/api-ivis-system/api/v1/getFileByFormat?type=EVR_EARLYVOTING&electionId=53815&countyId=<id>&county=<NAME>&electionDate=<MM/DD/YYYY>&format=CSV`

County ids follow alphabetical order, except that the portal sorts McLennan after McCulloch (id 161). An empty response means the county reported nothing for that day.

File contents. `VOTER_NAME` ("LAST, FIRST MIDDLE"), `ID_VOTER` (VUID), `VOTING_METHOD` (`IN-PERSON` / `MAIL-IN`), `PRECINCT`. There is **no address and no date column**. A county CSV holds only the voters credited on that date.

Timeliness and revisions. A day's files fill in over the following day or two. By the evening of October 29, all 50 counties had an in-person file for each of October 19-28. Harris's October 27 file, partial a day earlier, is now complete (75,185 of the county's 75,247), and for October 28 only Harris's is partial (32,078 of 78,747); the only other partial files are Gregg's October 19 and Hunt's October 20, partial since the first week. Nueces's October 28 file holds 5,954 voters; its October 25 and 27 files remain small (534 and 1,889). Re-downloading every day for every county on the evening of October 29 changed 225 files for October 14-28 from the afternoon download. Compared with the files used in the October 28 review, 181 county-day counts for October 14-27 differ: 125 mail counts (net +793 voters, 63 of them downward) and 56 in-person counts (net +16,862, of which Harris's October 27 file +16,327; Dallas's October 19 +207; 15 downward). The state re-dates mail ballots as well as adding them: Brazoria's October 26 mail rose from 382 to 649 and its October 20 from 1,651 to 1,867, while its October 21, 22, 23 and 24 fell from 88, 117, 77 and 74 to 31, 39, 24 and 21; Williamson's October 23 fell from 125 to 36 and its October 24 from 976 to 901, while its October 27 rose from 770 to 937; Lubbock's October 20 rose from 354 to 523 while its October 14 and 15 fell from 136 and 177 to 90 and 101; Wichita's October 22 rose from 39 to 119 while its October 19 fell from 369 to 313. Dallas (153), McLennan (71) and Rockwall (43) now have mail voters for October 27, which had none a day earlier. The October 28 files themselves grew between the afternoon and evening downloads of October 29: Collin from 3,447 to 27,619 records, Denton from 13 to 21,839, Fort Bend from 1,877 to 18,792, Harris from 4,814 to 33,754, Bexar from 37,958 to 42,397 and Gregg from 2 to 1,671.

Mail dates. The date of an SOS mail file is not the day the county received the ballot, and the state moves ballots from one day's file to another. In Travis, the state's October 16 mail voters are almost all ballots the county lists as received October 13, and its October 19 mail voters mostly the county's October 14 ballots. Mail comparisons in this review are therefore made over all days together.

Turnout table vs. CSVs. The statewide table now shows 784,604 in-person voters for October 19, 745,511 for October 20, 684,226 for October 21, 633,693 for October 22, 698,930 for October 23, 518,071 for October 24, 268,405 for October 25, 583,091 for October 26, 551,116 for October 27 and 499,433 for October 28. It agrees with the state's CSVs for every county and day except Travis (October 23: table 50,268, CSV 40,484), Ellis (October 23: 8,108 vs. 6,326), Hays (October 22: 10,861 vs. 8,791), Coryell (October 20: 1,867 vs. 1,442) and Henderson (October 25: 513 vs. 441).

Name formatting. The SOS appends name suffixes to the middle name without a space ("RAYJR"), which causes apparent name mismatches against county files.

4. How each county posts its rosters

"Cumulative" means each new file contains the earlier ones; "daily" means each file holds only that day.

4.1 Counties 1-20

County	Where	Format	Granularity	Voting date per voter	Download daily?
Harris	harrisvotes.com, Election Rosters	ZIP of CSV	Early voting one CSV per day, all in one ZIP replaced daily; mail cumulative	Yes	Recommended
Dallas	dallascountyvotes.org, election page	XLSX; in-person details as CSV from October 29 (and on October 21)	Cumulative, with earlier days revised; file names change often (now "Early-Voting-Turnout-Details.csv", with no date)	Yes	Recommended
Tarrant	tarrantcountytx.gov, current election	ZIP of TSV	Cumulative, same file name; files for the current day posted the same evening	Mail yes; **early voting no**	**Yes**
Bexar	elections.bexar.gov Document Center	PDF	Daily; the October 27 and 28 check-in lists are named "10272028" and "10282028"	Yes	No
Travis	votetravis.gov, one ZIP of daily workbooks	ZIP of XLSX	Daily workbooks in one ZIP, replaced each morning and again in the evening	Yes	No
Collin	collincountytx.gov/Elections/rosters	XLSX	Cumulative, posted the same evening	Yes	Recommended
Denton	votedenton.gov, rosters page	XLSX	Early voting cumulative, **undated from October 20**, posted the same evening; mail cumulative	October 19 only	**Yes**
Fort Bend	fortbendcountytx.gov, Early Voting Statistics	XLSX	Cumulative from October 21	Yes	Recommended
Hidalgo	hidalgocounty.us Document Center (updated in place)	CSV / XLSX	Cumulative	**No**	**Yes**
El Paso	epcountyvotestx.gov, Current Election	CSV (mail), XLSX	Mail cumulative (latest through October 27); early voting **cumulative from day 2, undated**	Mail yes; early voting no	**Yes**
Montgomery	elections.mctx.org, Early Voting Roster	ZIP of CSV per day	Daily	Yes	No
Williamson	wilcotx.gov Document Center (one document replaced)	XLSX	Cumulative, posted the same evening	Yes	Recommended
Cameron	cameroncountytx.gov, Elections results	XLSX (per jurisdiction)	Cumulative, replaced; mail list through October 27	Yes	Recommended

County	Where	Format	Granularity	Voting date per voter	Download daily?
Brazoria	brazoriacountyclerktx.gov, Voter Lists	XLSX	Daily; earlier days' files re-posted (October 21, 22 and 27 and the September 28-October 16 mail list again on October 29)	Yes	No
Bell	bellcountytx.com, Daily Early Voting Reports	PDF	Daily, posted the same evening	Yes	No
Galveston	galvestonvotes.org, Current Elections	CSV (mail), XLSX	Daily; latest mail list through October 28	Yes	No
Webb	webbcountytx.gov, Daily Voted List	PDF	Daily, posted the same day; the October 28 mail list gives a county certificate number instead of the VUID	Yes	No
Nueces, Lubbock, Hays	link to the SOS portal	SOS CSV	Daily (SOS)	File date	Re-download periodically

4.2 Counties 21-50

County	Own roster	Format and posting
McLennan	Yes	One PDF list of early voters, replaced each evening under a timestamped name; no method or date per voter
Jefferson	Yes	Excel 97-2003 (.xls) files on jeffcotxvotes.gov: one in-person list per day (VUID and name only) and a cumulative mail list renamed for the day it runs through (latest: through October 28, back under its earlier name pattern); twelve in-person rows mask or omit the VUID
Smith	Yes	Daily PDFs in a Laserfiche public portal; in-person lists daily, absentee lists cumulative
Brazos	Yes	Daily PDFs
Grayson	Yes	Daily XLSX check-in reports and absentee lists
Randall	Yes	Two PDFs re-posted daily (cumulative early voting roster with check-in time; mail roster printed sideways)
Wichita	Yes	PDFs behind a bot challenge that blocks automated downloads (downloaded by hand: check-ins through October 28, absentee list of October 29); daily check-ins, cumulative absentee lists every few days
Gregg	Yes	PDFs (check-ins, mail list); October 21 still not posted; latest mail list October 24-25
Hunt	Yes	PDFs; cumulative through October 20, daily from October 21; mail ballots appear in the daily lists with "BBM" as the polling place; dates written "10.24.26" from October 24

County	Own roster	Format and posting
Tom Green	Yes	PDFs; the roster and mail list are cumulative and named for the day before they are posted: the October 29 posting ("102826") runs through October 28, holds part of October 29, and has 67 rows without a VUID
Bastrop	Yes	Daily CSVs, posted the same evening; mail CSV re-posted under a new name each day
Potter	Yes	Two PDFs replaced daily; early voting roster cumulative and undated
Bowie	Yes	Daily PDFs (ballots by mail received, early vote history with precinct); nothing for October 28 by the afternoon of October 29
Victoria	Yes	One PDF and XLSX ("mail and in person"), cumulative, posted under each day's date
Henderson	Yes	Daily PDFs; layout changed October 23 (Voter_ID, Voter_Name, Voting Precinct, Timestamp or Date; the October 25 list titled "Voter Turnout")
Angelina	Yes	Daily PDFs (early voting history); no mail list; October 23-26 posted together October 27, the October 25 file cumulative (October 19-25); October 27 and 28 posted October 29
Guadalupe	Yes	Returned-mail PDFs, scanned images (not machine-readable); in-person rosters for each day, October 19-26 in one layout and October 27 in another (a check-in report printed to PDF); no October 28 roster by the afternoon of October 29
Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker	No	Link to the SOS portal

Counts are distinct VUIDs (county voters without a VUID are excluded). “On both”, “County only” and “State only” add up the days on which both sources are complete. “Agree” is the voters on both lists as a share of the larger list; it is 100% only when the county-only and state-only counts are both 0, and otherwise is rounded down (to two decimals from 99.9%), so a near-match is never shown as 100%. Hunt’s counts exclude its mail ballots. McLennan’s list (47,743 voters, posted the evening of October 28) contains all but 101 of the state’s 46,664 McLennan in-person and mail voters for October 14-28. Potter’s first two snapshots were posted on the same day, so its October 19 and 20 cannot be separated. Harris’s October 28 (the state’s file is partial) is left out of its totals. Not posted: Gregg’s October 21 and Guadalupe’s and Bowie’s October 28.

Most state-only voters are voters of other counties (§6.1) or, in Tarrant, voters the county lists a day later than the state (99 on October 19, 50 on October 20) and redacted voters (§6.2). Most county-only voters are a few dozen to a few hundred per day that the state has not received.

5.2 Mail ballots

The SOS mail data begins October 14 and is dated by when the state received it, days after the county, and the state moves ballots between days (§3); county mail lists go back to the first ballots received (September 21-22).

Hunt	395	699	373	326 (316 dated Oct 14-19)

Brazos (1,768 in the county's lists) has 9 mail ballots at the state. McLennan's list does not separate mail voters; the state has 1,624 McLennan mail voters, all but 19 of them on McLennan's list. Henderson and Angelina post no mail list and Guadalupe's mail lists are scanned images; the state has 302, 825 and 830 mail voters for them. Webb's count is from its lists through October 27; its October 28 list has no VUIDs.

For these 16 counties the state is the only machine-readable published source. All 16 have state files for each of October 19-28. All report mail ballots (Ector only 2). Nueces's October 25 file holds 534 voters and its October 27 file 1,889, against 5,569 for October 24, 6,151 for October 26 and 5,954 for October 28; the turnout table shows the same figures.

6. Anomalies between county and state data

6.1 State county files include voters of other counties

Across October 14-28, 2,236 voters (2,200 in-person, 36 mail) in the SOS county files appear on a different county's own roster, with the same first name and that county's precinct. The largest numbers are in the SOS files for Travis (233), Dallas (215), Denton (201), Bexar (187), Collin (121), Hays (99), Johnson (99), Harris (93), Tarrant (87) and Parker (78). No voter appears in two SOS county files, so these are records assigned to the wrong county's file, not duplicates. Anyone using SOS county files alone will slightly overcount each county.

6.2 State files identify voters Tarrant County redacts

Tarrant replaces the name, VUID and address of protected voters with "–Redacted–", keeping only precinct and date: 228 records in its current files (175 mail, 53 early in-person). No other county redacts identities; Harris hides the address (only) of 3,156 named voters.

- **Mail:** the SOS Tarrant mail files list 145 mail voters who are not on Tarrant's mail roster (144 after excluding one voter of another county). For 122 of them there is a redacted Tarrant mail record with the same precinct and the same date.
- **In person:** the SOS Tarrant files list 92 in-person voters (besides 86 of other counties) who are not on Tarrant's roster on any day; 52 of them match a redacted Tarrant in-person record by precinct.
- **Redacted counts:** Tarrant's cumulative in-person list held 104 redacted records on October 20, falling each day to 47 in the afternoon file of October 27, then 53 in the evening file of October 27 and again on October 29 (the list through October 28); its cumulative mail list held 215 in the October 23 afternoon file, 202 in the evening file, 192 on October 25, 186 on October 27, 182 in the October 27 evening file and 175 on October 29. A cumulative list should not shrink.

With ten days of data, the match remains close for both voting methods. This continues to indicate that the state publishes the name, VUID and precinct of voters whose identities Tarrant withholds. It cannot be proven record by record, because the redacted rows carry no identifier. Neither source exposes an address.

6.3 Reporting gaps in the state data

- **In-person:** every county has a state file for every day of October 19-28; Harris's October 28 file is partial (32,078 of 78,747). Two earlier days remain partial: Gregg's October 19 (3 of 3,677) and Hunt's October 20 (1,724 of 2,044). Nueces's October 25 and 27 files are small (534 and 1,889 voters).
- **Mail:** Brazos (9 of 1,768) and Ector (2) report almost none to the state.
- **Turnout table vs. CSV:** Travis, Ellis, Hays, Coryell and Henderson (§3).

6.4 Mail ballots in state data but not in the county's mail list

- **Lists not yet updated:** Cameron 210 (97 dated October 28 by the state, after its latest list, and 83 October 27), El Paso 193 (176 dated October 28; its latest list runs through October 27), Gregg 140 (86 dated October 27 and 34 October 26; latest list October 24-25), Galveston 103 (91 dated October 27, although its list runs through October 28), Wichita 78 (72 dated October 28) and Webb 97 (49 dated October 14, and 47 dated October 28 that cannot be checked against its October 28 list, which has no VUIDs).
- **Collin and Victoria:** Collin's October 28 list lacks 23 state mail voters (besides one voter of another county), down from 291 against its October 27 list; Victoria's lacks 11, now that its mail ballots run through October 28.
- **Hunt:** the state has 699 Hunt mail voters, the county's files 395 (its mail lists and the "BBM" rows in its daily lists); 326 state mail voters are in neither, 316 of them dated October 14-19 by the state.
- **Travis:** 194 state mail voters are on none of Travis's lists (97 dated October 26, 56 October 19 and 24 October 22 by the state).
- **Dallas:** 188 state mail voters (besides two voters of other counties) are not on Dallas's October 28 mail list (50 dated October 26, 46 October 25 and 40 October 20).
- **Elsewhere:** Harris 259 (33 dated October 28, 32 October 25, 32 October 26), Bexar 181 (83 dated October 15, 39 October 28), Montgomery 150, Bell 147, Bowie 82 (44 dated October 28), Fort Bend 61, Smith 47 (21 dated October 28), Denton 19, Tom Green 16, Brazoria 11, Williamson 11, Jefferson 6, Randall 6, Hidalgo 3 and Grayson 2.

6.5 Precinct differences

- **Williamson:** the October 28 file, like the October 22-27 files, gives a precinct different from the state's for its mail voters (4,685); the October 21 file matched the state for all of them. One in-person row differs as well. The county's mail precinct column appears to have been scrambled since October 22.
- **Bowie:** the October 20, 21 and 23 early vote reports give a precinct that differs from the state's for 1,566, 1,711 and 1,441 voters (4,718); the October 22 and 24-27 reports match for all voters. The values were checked against the PDFs.
- **Bexar:** 65 voters in the October 22 check-in report, and four in three other reports.
- **Elsewhere,** on matched voters: Harris 1,787 (1,723 in-person), Tarrant 237, Galveston 178 (111 of them in its October 19 file), El Paso 172 (all in-person), Smith 84, Montgomery 18, Hunt 15, Denton 9, Travis 9, Dallas 4, Potter 4, Bastrop and Brazoria 3 each, and one each in Brazos, Cameron, Fort Bend, Henderson, Victoria and Wichita.

Denton and Gregg write the precinct with a two-digit split appended ("418603" for 4186); this is formatting, not a difference.

6.6 Surnames

On matched voters, the surname differs between the county and the state in 110 Collin, 64 Tarrant, 57 Bexar, 55 Denton, 45 Williamson and 44 Cameron records, and in 37 or fewer elsewhere (719 in all). In all but 29 of these records the two names share at least one name: they are name changes recorded in one system and not the other, or formatting (counties that write names "FIRST MIDDLE LAST").

6.7 One VUID, two different people

- **Within one county's files:** one VUID is listed for two different voters in Harris's cumulative mail file, in Bowie's October 22 and October 24 mail lists, on two rows of Brazoria's October 27 mail list and two rows of Galveston's October 27 check-ins, and for two different people checking in at Bexar on October 19 and October 23. New: two VUIDs each on two rows of Galveston's October 28 mail list, one VUID on two rows of Dallas's in-person list (October 21 and October 28), and one VUID for two different people in Hunt's October 27 and October 28 mail rows.
- **On two counties' rosters:** one VUID is a mail ballot received October 21 on both Bell's and Randall's mail lists, for two people with different names. New: a second Bell/Randall VUID (mail received October 27 on both lists), a Bell mail ballot of October 26 that is also on Wichita's October 29 absentee list, and a Bell in-person voter of October 20 whose VUID is on Fort Bend's in-person list for October 28, in each case for people with no name in common.
- **SOS file vs. a county roster:** 52 VUIDs name a voter in an SOS file and an entirely different person (no name in common) on a county's roster. Twenty-nine are within one county (Harris 5, Bexar 3, Dallas 3, Guadalupe 3, Brazoria, Galveston, Montgomery and Tarrant 2 each, and Bowie, Collin, Denton, El Paso, Grayson, Hunt and Travis 1 each); Guadalupe's three are in its October 27 roster, read for the first time, which prints each voter's whole row as one line. Twenty-three are across counties: ten on Bell's roster (against the SOS Coryell (3), Fort Bend (2), Randall (2), Lubbock, Victoria and Wichita files), three on Denton's roster against the SOS Dallas (2) and Tarrant files, three on Harris's against the SOS Hidalgo (2, one new) and Bell files, two on El Paso's against the SOS Harris and Montgomery files, and one each on Dallas's against Collin, Tarrant's against Hidalgo, McLennan's against Montgomery, Collin's against Tom Green and, new, Williamson's against Travis.

Sixteen of the cross-county VUIDs, including all ten on Bell's roster, are recent registrations in one numeric range (2223365544-2223382143). Bell County's roster gives these VUIDs to different people than the state's files and three other counties' rosters do, so the Bell County Elections office and the SOS should compare them first.

6.8 One voter in two counties' own rosters

Eleven are the same person in both counties (same first and last name); two have the same first name and a different last name:

Counties	First county	Second county	State's files
Tarrant, Smith	in person, in Tarrant's list from October 20 (precinct 1224)	in person October 22 (Smith precinct 245)	SOS Smith October 20 file, with the Tarrant precinct
Tarrant, Dallas	in person, in Tarrant's list from October 22 (precinct 1010)	in person October 23 (Dallas precinct 1146)	SOS Dallas October 22 file, with the Tarrant precinct
El Paso, Bexar	in person, in El Paso's list from October 21 (precinct 164)	in person October 24 (Bexar precinct 4031)	SOS Bexar October 21 file, with the El Paso precinct

Counties	First county	Second county	State's files
Hidalgo, Bexar	in person, in Hidalgo's list from October 23 (precinct 151)	in person October 23 (Bexar precinct 2143)	SOS Bexar October 23 file, with the Hidalgo precinct
Harris, Travis	mail ballot received September 30	in person October 23	SOS Travis October 23 file (in person)
Bexar, Webb	in person October 19	in person October 19	reported since October 20
Cameron, Hidalgo	mail ballot received October 13	mail ballot (no date)	reported since October 20
Bexar, Cameron	in person October 19 (Bexar precinct 1045.01)	in person October 25 (Cameron precinct 21)	SOS Cameron October 25 file only; not in the SOS Bexar files (different last name)
Smith, Guadalupe	in person October 19 (Smith precinct 242)	in person October 21 (Guadalupe precinct 406)	SOS Smith October 19 file only; not in the SOS Guadalupe files
Collin, Travis	in person October 23 (Collin precinct 90)	in person October 27 (Travis precinct 203)	SOS Travis October 23 file only, with the Collin precinct; not in the SOS Collin or Travis October 27 files
Bexar, Tarrant (new)	in person October 20 (Bexar precinct 3066)	in person, in Tarrant's list from October 28 (precinct 1170)	SOS Bexar October 20 file only, with the Bexar precinct; not in the SOS Tarrant files
El Paso, Tarrant (new)	in person, in El Paso's list from October 25 (precinct 016)	in person, in Tarrant's list from October 28 (precinct 1083)	SOS El Paso October 25 file only; not in the SOS Tarrant files
Bexar, Hidalgo (new)	in person October 25 (Bexar precinct 4179)	in person, in Hidalgo's list from October 28 (precinct 190)	SOS Bexar October 25 file only; not in the SOS Hidalgo files (different last name)

Tarrant's and Hidalgo's lists carry no voting date, so "from October 28" is the first daily list that contains the voter; a voter added late to a cumulative list appears on the day of that list (§5.1).

6.9 Mail ballot and in-person vote by the same voter

Twenty-nine voters are listed both as a returned mail ballot and as an early in-person voter in the same county (seven new since the last review):

- **Dallas 13:** mail October 9 and in person October 19, 20, 22 and 27; mail October 24 and in person October 19, 26 and 27 (two); and, new, five voters who voted in person October 28, three with mail ballots listed as received October 24 and two October 25. The state lists only the in-person vote for the five new voters.
- **El Paso 7:** mail returned October 6-20; in person by October 19 (2), October 21 (2), October 22 (1), October 26 (1) and October 27 (1).
- **Grayson 2:** mail October 2, in person October 20; mail October 5, in person October 27.
- **Tarrant 2:** in person by October 19 and by October 20; mail ballots recorded October 21 and 22.
- **Tom Green 2 (new):** mail received September 30 and October 5; both in person October 27, in the roster posted October 29, the first to hold all of October 27. The state lists one of them in its Tom Green October 27 file (in person) and the other in neither Tom Green file.
- **Bastrop 1:** mail October 16; in person October 22.
- **Jefferson 1:** on the cumulative mail list; in person October 20. The state lists only the in-person vote.
- **Travis 1:** mail October 7; in person October 21.

A voter whose mail ballot has been accepted may not vote in person; these may be cancelled mail ballots, provisional votes or data errors.

6.10 Duplicates within county files

- **Same-day duplicate check-ins:** Angelina 149 (132 in the history files posted October 27 and 17 in its October 27 and 28 files, each listed two or three times with the same precinct), Grayson 8, Bexar 6, Collin 4, Guadalupe 4, Dallas 3, Jefferson 3, Galveston 2, Tom Green 2, and 1 each in Travis and Webb. Jefferson also lists one VUID in its October 20 and October 23 in-person files (the state lists only October 20).

- **Mail ballot received twice:** 11 Bexar voters appear on two days' received-ballot lists; Travis 6, Montgomery 3, Gregg 2, and 1 each in Bowie, Brazoria, Brazos, Collin, Galveston, Harris and Hunt.

6.11 Identifiers that are not state VUIDs

County	Records	ID length	Lists
Tarrant	503	8 digits (one 7)	mail (362), in-person (141)
Collin	491	6, 7, 9 digits	in-person (326), mail (162), provisional (3)
Denton	215	7 digits	in-person (212), mail (3)
Grayson	75	6, 8, 9 digits	in-person (63), mail (12)
El Paso	70	7 digits	mail (57), in-person (13)
Guadalupe	69	7 digits (one 8)	in-person
Hidalgo	60	8-9 digits	mail (42), in-person (18)
Smith	37	7 digits (one 8)	in-person
Webb	32	8 digits	mail (25), in-person (7)
Jefferson	21	6, 7, 8, 9, 11 digits	in-person
Gregg	18	6, 7, 11 digits	in-person
Bexar	8	8, 9, 11 digits	in-person
Bowie	8	9 or 11 digits	mail
Tom Green	3	9 digits	mail
Henderson	1	8 digits	in-person

These are likely county-internal numbers for voters whose state VUID had not been assigned or synchronized, or (for the 9- and 11-digit cases) a VUID with a digit missing or added. The state files contain none, so these voters cannot be matched by ID; for 25 of them the state lists a voter with the same name and precinct under a 10-digit VUID (see the supplement). Webb's October 28 mail list uses county certificate numbers throughout and is not counted here.

7. Other county data quality notes

- **Blank VUIDs** (named voters with no ID): Harris 591 mail ballots; Collin 463 (437 provisional); Guadalupe 178 in-person; Grayson 124 in-person; Tom Green 67 in-person (all in its October 29 posting); Bell 39 mail; Dallas 23; Hunt 20; Bexar 19 in-person; Fort Bend 12 mail; Jefferson 12 (masked or omitted); Wichita 6; Montgomery 3; Bastrop and Hidalgo 2; Brazoria, Gregg and Randall 1. Travis's 1,730 and Montgomery's 436 Limited Ballot voters have no VUID by design. Tarrant's 228 redacted records also have no VUID (§6.2).
- **No voting date:** Tarrant's, Hidalgo's and Potter's early voting lists, Denton's from October 20, El Paso's from day 2 and McLennan's list carry no date per voter. Jefferson's lists carry neither date nor precinct (the in-person date is the file's). Smith's, Wichita's and Jefferson's mail lists are cumulative, so the date in their file names is the list date.
- **Not yet posted** by October 29 afternoon: Gregg's October 21 roster; Guadalupe's and Bowie's October 28. Gregg's mail list stops at October 24-25. Webb's October 28 mail list has no VUIDs.
- **Files replaced or re-posted:** Victoria, Potter, Tom Green and Jefferson (mail) post cumulative files; Randall re-posts its two rosters; McLennan posts one list under a new timestamped name; Bastrop renames its mail CSV daily; Brazoria re-posts earlier days' lists; Travis replaces its ZIP each morning and evening; Dallas renamed its in-person file again, now with no date; Angelina posted a cumulative October 25 file beside its daily files.
- **Same-day posting:** Collin, Denton, Webb, McLennan, Potter, Randall, Bastrop, Tarrant, Bexar, Bell, Bowie, Cameron, Williamson, Victoria, Gregg, Brazoria and Travis post lists for the current day during that day or that evening; they may change when re-posted. This review used each county's files for October 28 and earlier, as posted by the afternoon of October 29.
- **Hard-to-read formats:** Guadalupe's mail lists are scanned images, its in-person rosters print some VUIDs run together with the ZIP code, and its October 27 roster is in a new layout (now read); Gregg prints long polling-place names past their cells; Wichita's PDFs sit behind a bot challenge and wrap each absentee record onto two lines; Smith's lists are in a JavaScript document portal; Randall prints its mail roster sideways; Grayson's check-in workbook is a printed report with its column titles

on separate rows; Jefferson posts Excel 97-2003 (.xls) files; Hunt changed its date format on October 24; Henderson changed its layout on October 23 and its title on October 25; Bexar misdated its October 27 and 28 file names; Webb replaced the VUID in its October 28 mail list with a certificate number.

8. Recommendations

1. **Download daily** through Election Day: Tarrant, Hidalgo, Denton, El Paso and Potter (no voting date per voter), Victoria, Tom Green, Jefferson and McLennan (cumulative files replaced), and Collin, Williamson, Cameron, Dallas, Fort Bend and Harris (latest file only). Save same-named files with the download time.
2. **Prefer county files** for counts and voter lists; use the SOS portal for the 16 counties that post nothing else and as a cross-check. Re-download every SOS day before each comparison, since the state fills in, revises and re-dates them, and do not read SOS mail dates as received dates or the turnout table as a substitute for the county CSVs.
3. **When using SOS county files,** expect voters of other counties in each file (§6.1) and check them against neighboring counties before treating them as anomalies.
4. **Refer to the counties:**
    - the thirteen voters recorded in two counties (§6.8), first the three new ones, two of them added to Tarrant's list on October 28;
    - the 29 voters with both a mail ballot and an in-person vote, first the five in Dallas who voted in person on October 28 and the two in Tom Green;
    - the shared VUIDs (§6.7), first those on Bell's roster;
    - Williamson's mail precincts since October 22, and Bowie's October 20, 21 and 23 precincts;
    - Webb's October 28 mail list without VUIDs;
    - Angelina's repeated check-ins;
    - Hunt's mail ballots in its in-person lists;
    - Bexar's mail ballots received twice;
    - the precinct differences in Harris, Tarrant, Galveston, El Paso, Smith and Bexar;
    - the mail lists that trail the state's (Cameron, El Paso, Gregg, Galveston, Wichita).
5. **Refer to Tarrant County and the Secretary of State:**
    - the publication by the SOS of voters Tarrant redacts, and the changing counts of redacted records (§6.2);
    - the SOS files' inclusion of other counties' voters (§6.1), including the votes filed under a second county in §6.8;
    - the re-dating of mail ballots between daily files (§3);
    - the turnout table's Travis, Ellis, Hays, Coryell and Henderson figures (§3).
6. **Repeat this comparison** after early voting closes and after the canvass.

Appendix A. Files

Downloaded files are saved per county:

- county files are saved as `G26_<county file name>`; files a county posts under the same name every day get the download date (`_2026-10-29`), or the download date and time (`_2026-10-29-13-36-49`) for cumulative lists that carry no voting dates (Hidalgo, Potter);
- SOS files are saved as `G26_<COUNTY>.2026 NOVEMBER GENERAL ELECTION.EarlyVoting.<MM_DD_YYYY>.csv`; when the state revises a day, the earlier copy is kept.

The files load in Election Explorer (File → Load Voter Roster); the comparisons in this report were produced from the loader's normalized output. The companion supplement (`Texas_Early_Voting_Roster_Review_2026-10-29_Supplement`) lists each anomalous record's VUID and its location in the county's and the state's files.

Appendix B. Caveats

- In-person comparisons cover October 19-28; where the state's file for a day is partial or missing, that day is shown but left out of the totals.
- County files were downloaded October 20-29 at different times; several counties post same-day lists that are later replaced, and counties keep revising earlier days. The state files were re-downloaded about six hours after the county files on October 29.
- Day-level counts for cumulative, undated county lists were recovered from consecutive snapshots and attribute voters added late to the day they first appear (Tarrant, §5.1).
- A match between two records means the same VUID; name and precinct differences were checked separately. A match by name, precinct or date without a common VUID (§6.2, §6.11) is an inference, not a confirmed identity.
- This review describes data as published. It does not establish that any voter voted improperly; the records flagged in §6.5-§6.10 have ordinary clerical explanations as well as serious ones, and only the counties can resolve them.
