Texas Early Voting Rosters: County and State Data Review

Election: November 3, 2026 General Election
Data through: Monday, October 26, 2026 (eighth day of in-person early voting)
Prepared: October 27, 2026 (updates the reviews of October 20-26; county files as posted by 3:09 PM October 27, with Guadalupe's October 26 roster and Wichita's latest files by 9:39 PM; state files as posted by 11:16 PM October 27)
Scope: the 50 most populous Texas counties and the Texas Secretary of State (SOS) roster portal

1. Summary

Texas Election Code §87.121 requires each county to post its early voting rosters (in-person and by mail) daily and to submit them for statewide elections to the Secretary of State, which republishes them. This update compares the county and state lists voter by voter (by Voter Unique Identifier, VUID) for the first eight days of in-person voting, October 19-26, in the 50 most populous counties.

Key findings:

1. **The two sources agree closely, but not completely, in every county.** Over every day for which both are complete, the county's and the state's lists of early in-person voters agree on 99.0% or more of voters in 32 of the 33 counties with dated county rosters, and on 98.7% in Guadalupe, compared for the first time. In none of them do the two lists match exactly: every county has at least one voter on one list and not the other. (In this review a 100% figure is shown only when no voter is on one list and not the other.) Seven voters are an in-person voter in one source and a mail voter in the other (Hunt 5, Hidalgo 1, Cameron 1).
2. **October 26 is in for every county but Webb, and Harris's file is partial.** Every one of the 50 counties has a state in-person file for each of October 19-25, all complete against the counties' own lists. For October 26, Webb has no state file and Harris's holds 42,430 of the county's 79,474 voters; every other county's October 26 file holds at least 90% of the county's count.
3. **The state keeps revising earlier days.** Since the evening of October 26, 184 county-day counts for October 14-25 changed in the state's files: 133 mail counts (net +1,094 voters, 65 of them downward) and 51 in-person counts (net +30). The state moves mail ballots between days: Brazoria's October 20 mail rose from 402 to 1,190, while Kaufman's October 20 fell from 410 to 68 as its October 15-18 files appeared for the first time (484 voters). The state also filled in its October 26 files during the day: Collin's grew from 15,259 to 30,506 records between the afternoon and the evening downloads, Bexar's from 40,435 to 44,969.
4. **Nine voters are recorded as voting in two counties.** New since the last review, now that Guadalupe's rosters are compared: one voter on Smith's in-person roster for October 19 and on Guadalupe's for October 21 (same name), whom the state lists only in Smith's October 19 file. The other eight are unchanged (§6.8).
5. **Three more voters have both a mail ballot and an in-person vote.** In Dallas, Denton and El Paso, a voter whose mail ballot the county lists as received October 20-24 voted in person on October 26. Eighteen voters are now listed both ways in the same county (§6.9).
6. **The turnout table still overstates Travis, Ellis, Hays, Coryell and Henderson.** For October 23 the portal's table shows 50,268 Travis in-person voters, against 40,484 in the state's own Travis file and 40,453 in Travis County's roster. For October 25 it shows 513 Henderson voters, against 441 in both the state's file and the county's list.
7. **Guadalupe's in-person rosters are now compared.** On October 27 Guadalupe re-posted its in-person rosters for October 19-23 under new names and added October 24-26; Election Explorer's roster loader now reads them. They agree with the state's files on 98.7% of voters (33,865 on both, 440 only in Guadalupe's lists, 73 only in the state's, 17 of them voters of other counties). The lists also hold 158 rows without a VUID and 59 seven- or eight-digit county numbers.

8. **Angelina posted October 23-26 at once, with repeated rows.** Its October 25 file is cumulative (October 19-25), its October 24 file holds only 237 of that day's voters, and its new files list 132 voters two or three times on the same day.
9. **Two large counties' mail lists trail the state's.** The state's October 26 mail files hold 927 Dallas voters and 710 Collin voters who are not on the counties' current lists; Collin's list "through October 26" ends with ballots received October 25.
10. **Williamson's mail precincts are still wrong.** Its October 26 file gives a precinct different from the state's for 4,689 mail voters (and one in-person voter).
11. **Bowie's October 20, 21 and 23 reports disagree with the state** on the precinct of 4,718 voters; its October 22 and 24-26 reports match.
12. **The state's county files contain voters of other counties.** Across October 14-26, 1,778 voters (1,753 in-person, 25 mail) appear in an SOS county file while being on a different county's own roster, with that county's precinct.
13. **The state's files continue to name voters that Tarrant County redacts,** while Tarrant's own cumulative in-person list holds fewer redacted records each day: 104 on October 20, 47 on October 27.
14. **Records that warrant review by the counties** (none is proof of wrongdoing; most have clerical explanations):
    - 18 voters listed both as a returned mail ballot and as an early in-person voter in the same county (El Paso 6, Dallas 5, Tarrant 2, Bastrop, Denton, Grayson, Jefferson and Travis 1 each);
    - 39 VUIDs that name entirely different people in two records, 9 of them on Bell's roster;
    - 163 same-day duplicate check-ins in 12 counties (132 of them in Angelina), and 31 mail ballots listed as received on two days (11 in Bexar);
    - precinct differences besides Williamson and Bowie: Harris 1,274, Tarrant 188, Galveston 163, El Paso 103, Bexar 68.

2. Scope and method

Counties (by 2025 Census population):

- Ranks 1-20: Harris, Dallas, Tarrant, Bexar, Travis, Collin, Denton, Fort Bend, Hidalgo, El Paso, Montgomery, Williamson, Cameron, Brazoria, Bell, Galveston, Nueces, Lubbock, Hays, Webb.
- Ranks 21-50: McLennan, Jefferson, Smith, Brazos, Ellis, Johnson, Kaufman, Comal, Guadalupe, Midland, Parker, Ector, Grayson, Randall, Taylor, Rockwall, Wichita, Gregg, Hunt, Liberty, Tom Green, Bastrop, Potter, Bowie, Victoria, Henderson, Angelina, Orange, Coryell, Walker.

Sources:

- each county's own roster files, downloaded daily October 20-27. 34 counties post their own rosters, and all 34 are compared in the tables below (Guadalupe's mail lists are scanned images, so only its in-person rosters are compared). The other 16 (Nueces, Lubbock, Hays, Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker) link to the SOS portal;
- the SOS portal's per-county early voting CSVs for October 14-26, for all 50 counties, all days re-downloaded on the evening of October 27, since the state revises them;
- the SOS turnout tables for October 19-26.

Method. All files were read with Election Explorer's roster loader, which normalizes each county's layout to VUID, precinct, name, voting method and date. The loader now reads Henderson's new layout, Tom Green's untitled mail list and Guadalupe's in-person rosters, which earlier reviews read from the PDFs' text or compared separately. For every county file, the number of VUIDs loaded matches an independent count of the 10-digit identifiers in the raw file

exactly for 358 of the 361 files. Of the other three, two differ by one identifier each; in Guadalupe's October 26 roster the loader finds 18 VUIDs the independent count misses (the PDF prints them run together with the ZIP code) and keeps four rows without their VUID (lines whose long address or line break pushes the VUID out of its column). Angelina's lists were taken from its cumulative October 25 file and its October 26 file. The lists were then compared by VUID:

- *early in-person, by day*: the county's in-person voters for each of October 19-26 vs. the SOS's IN-PERSON voters for that date. For counties whose lists are cumulative and undated (Tarrant, Hidalgo, Denton, El Paso, Potter), each day was recovered from consecutive daily snapshots (a day's voters = that day's snapshot minus the previous day's). A day counts toward the totals only when both sources have it and the state's file holds at least 90% of the county's count;
- *mail*: the county's latest mail list (or all daily files) vs. the SOS's MAIL-IN voters for October 14-26.

"County-only" and "state-only" voters were checked against the other 49 counties' files. Name and precinct comparisons ignore formatting (case, spacing, leading zeros, "Precinct"/"P"/"S" prefixes, and a two-digit precinct split such as "418603" for precinct 4186). Voter names and VUIDs are deliberately not reproduced in this report; the companion supplement lists the VUIDs and file locations of the anomalies for county and state staff.

3. The Secretary of State portal

Where: "Election Information & Turnout Data", `https://goelect.txelections.civixapps.com/ivis-evr-ui/evr`. Pick an election and an early voting date, then *Submit*: a table of registered voters, in-person and mail turnout per county, with a **CSV Download** per county under *Voter Details Report*.

How the data is served. The page fetches JSON whose `upload` field is the file in base64:

Data	Request
Elections, early voting dates and county ids	`/api-ivis-system/api/v1/getFile?type=EVR_ELECTION`
Turnout table for one date	`/api-ivis-system/api/v1/getFile?type=EVR_EARLYVOTING&electionId=53815&electionDate=10/26/2026`
One county's voter CSV for one date	`/api-ivis-system/api/v1/getFileByFormat?type=EVR_EARLYVOTING&electionId=53815&countyId=<id>&county=<NAME>&electionDate=<MM/DD/YYYY>&format=CSV`

County ids follow alphabetical order, except that the portal sorts McLennan after McCulloch (id 161). An empty response means the county reported nothing for that day.

File contents. `VOTER_NAME` ("LAST, FIRST MIDDLE"), `ID_VOTER` (VUID), `VOTING_METHOD` (`IN-PERSON` / `MAIL-IN`), `PRECINCT`. There is **no address and no date column**. A county CSV holds only the voters credited on that date.

Timeliness and revisions. A day's files fill in over the following day or two. By the evening of October 27, all 50 counties had an in-person file for each of October 19-25, none of them partial against the county's own count, and 49 had one for October 26 (none for Webb); Harris's October 26 file holds 42,430 of the county's 79,474 voters. Re-downloading every day for every county on October 27 changed 141 files for October 14-22 besides the recent days. Compared with the files used in the October 26 review, 184 county-day counts for October 14-25 differ: 133 mail counts (net +1,094 voters, 65 of them downward) and 51 in-person counts (net +30, 25 downward). The state re-dates mail ballots as well as adding them: Brazoria's October 20 mail rose from 402 to 1,190; Kaufman's October 20 fell from 410 to 68, its October 21 from 178 to 62 and its October 22 from 56 to 6, while its October 15-18 files appeared for the first time (484 voters); Randall's October 22 rose from 570 to 711, Williamson's from 708 to 835; Comal's October 15 fell from 202 to 119. The October 26 files themselves grew between the afternoon and evening downloads of October 27: Collin from 15,259 to 30,506 records, Bexar from 40,435 to 44,969 and Dallas from 44,213 to 45,150.

Mail dates. The date of an SOS mail file is not the day the county received the ballot, and the state moves ballots from one day's file to another. In Travis, the state's October 16 mail voters are almost all ballots the county lists as received October 13, and its October 19 mail voters mostly the county's October 14 ballots. Mail comparisons in this review are therefore made over all days together.

Turnout table vs. CSVs. The statewide table now shows 784,344 in-person voters for October 19, 745,191 for October 20, 682,359 for October 21, 633,601 for October 22, 698,852 for October 23, 517,982 for October 24, 268,205 for October 25 and 539,751 for October 26. It agrees with the state's CSVs for every county and day except Travis (October 23: table 50,268, CSV 40,484), Ellis (October 23: 8,108 vs. 6,326), Hays (October 22: 10,862 vs. 8,792), Coryell (October 20: 1,867 vs. 1,442) and Henderson (October 25: 513 vs. 441).

Name formatting. The SOS appends name suffixes to the middle name without a space ("RAYJR"), which causes apparent name mismatches against county files.

4. How each county posts its rosters

"Cumulative" means each new file contains the earlier ones; "daily" means each file holds only that day.

4.1 Counties 1-20

County	Where	Format	Granularity	Voting date per voter	Download daily?
Harris	harrisvotes.com, Election Rosters	ZIP of CSV	Early voting one CSV per day, all in one ZIP replaced daily; mail cumulative	Yes	Recommended
Dallas	dallascountyvotes.org, election page	XLSX (CSV on October 21 only)	Cumulative, with earlier days revised; file names change often ("In-Person-Early-Voting-Turnout-Details-Report_10.26.2026")	Yes	Recommended
Tarrant	tarrantcountytx.gov, current election	ZIP of TSV	Cumulative, same file name; files for the current day posted the same evening	Mail yes; **early voting no**	**Yes**
Bexar	elections.bexar.gov Document Center	PDF	Daily; the October 27 check-in list is named "10272028"	Yes	No
Travis	votetravis.gov, one ZIP of daily workbooks	ZIP of XLSX	Daily workbooks in one ZIP, replaced each morning and again in the evening (October 27: with a corrected October 26 mail workbook)	Yes	No

County	Where	Format	Granularity	Voting date per voter	Download daily?
Collin	collincountytx.gov/Elections/rosters	XLSX	Cumulative, posted the same evening; the mail list "through October 26" ends with ballots received October 25	Yes	Recommended
Denton	votedenton.gov, rosters page	XLSX	Early voting cumulative, **undated from October 20**, posted the same evening; mail cumulative	October 19 only	**Yes**
Fort Bend	fortbendcountytx.gov, Early Voting Statistics	XLSX	Cumulative from October 21; mail list updated October 26 after none for October 24-25	Yes	Recommended
Hidalgo	hidalgocounty.us Document Center (updated in place)	CSV / XLSX	Cumulative	**No**	**Yes**
El Paso	epcountyvotestx.gov, Current Election	CSV (mail), XLSX	Mail cumulative; early voting **cumulative from day 2, undated**	Mail yes; early voting no	**Yes**
Montgomery	elections.mctx.org, Early Voting Roster	ZIP of CSV per day	Daily	Yes	No
Williamson	wilcotx.gov Document Center (one document replaced)	XLSX	Cumulative	Yes	Recommended
Cameron	cameroncountytx.gov, Elections results	XLSX (per jurisdiction)	Cumulative, replaced; mail list through October 26	Yes	Recommended
Brazoria	brazoriacountyclerktx.gov, Voter Lists	XLSX	Daily; earlier days' files re-posted (October 21 and 22 again on October 27)	Yes	No
Bell	bellcountytx.com, Daily Early Voting Reports	PDF	Daily	Yes	No
Galveston	galvestonvotes.org, Current Elections	CSV (mail), XLSX	Daily	Yes	No
Webb	webbcountytx.gov, Daily Voted List	PDF	Daily, posted the same day	Yes	No
Nueces, Lubbock, Hays	link to the SOS portal	SOS CSV	Daily (SOS)	File date	Re-download periodically

4.2 Counties 21-50

County	Own roster	Format and posting
McLennan	Yes	One PDF list of early voters, replaced each evening under a timestamped name; no method or date per voter
Jefferson	Yes	Excel 97-2003 (.xls) files on jeffcotxvotes.gov: one in-person list per day (VUID and name only) and a cumulative mail list renamed for the day it runs through (latest: through October 26); nine in-person rows mask the VUID as "**********"
Smith	Yes	Daily PDFs in a Laserfiche public portal; in-person lists daily, absentee lists cumulative
Brazos	Yes	Daily PDFs
Grayson	Yes	Daily XLSX check-in reports and absentee lists
Randall	Yes	Two PDFs re-posted daily (cumulative early voting roster with check-in time; mail roster printed sideways); mail roster updated for October 26
Wichita	Yes	PDFs behind a bot challenge that blocks automated downloads (the October 26 check-ins and October 27 absentee list were downloaded by hand); daily check-ins, cumulative absentee lists every other day
Gregg	Yes	PDFs (check-ins, mail list); October 21 still not posted; latest mail list October 24-25
Hunt	Yes	PDFs; cumulative through October 20, daily from October 21; mail ballots appear in the October 23 and 24 lists with "BBM" as the polling place; dates written "10.24.26" from October 24
Tom Green	Yes	PDFs; the roster and mail list are cumulative (latest posted October 26, through October 25; nothing newer by October 27 evening); the mail list's latest ballots are dated October 24
Bastrop	Yes	Daily CSVs; mail CSV re-posted under a new name each day
Potter	Yes	Two PDFs replaced daily after the polls close; early voting roster cumulative and undated; mail roster updated October 27 after none since October 23
Bowie	Yes	Daily PDFs (ballots by mail received, early vote history with precinct); a ballots-by-mail list for October 27 posted the same day

County	Own roster	Format and posting
Victoria	Yes	One PDF and XLSX ("mail and in person"), cumulative, posted under each day's date; its mail ballots stop at October 23
Henderson	Yes	Daily PDFs; layout changed October 23 (Voter_ID, Voter_Name, Voting Precinct, Timestamp or Date; the October 25 list titled "Voter Turnout")
Angelina	Yes	Daily PDFs (early voting history); no mail list; October 23-26 posted together October 27, the October 25 file cumulative (October 19-25)
Guadalupe	Yes	Returned-mail PDFs, scanned images (not machine-readable); in-person rosters for each day (October 19-26), re-posted October 27 under new names ("Early Voting in Person Roster")
Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker	No	Link to the SOS portal

Counts are distinct VUIDs (county voters without a VUID are excluded). “On both”, “County only” and “State only” add up the days on which both sources are complete. “Agree” is the voters on both lists as a share of the larger list; it is 100% only when the county-only and state-only counts are both 0, and otherwise is rounded down (to two decimals from 99.9%), so a near-match is never shown as 100%. Hunt’s October 23 and 24 counts exclude its mail ballots. McLennan’s list (38,514 voters, posted the evening of October 26) contains all but 90 of the state’s 37,461 McLennan in-person and mail voters for October 14-26. Potter’s first two snapshots were posted on the same day, so its October

19 and 20 cannot be separated. Harris's October 26 (the state's file is partial) and Webb's October 26 (no state file) are left out of their totals; Tom Green has not posted October 26 and Gregg has not posted October 21.

Most state-only voters are voters of other counties (§6.1) or, in Tarrant, voters the county lists a day later than the state (98 on October 19, 49 on October 20) and redacted voters (§6.2). Most county-only voters are a few dozen to a few hundred per day that the state has not received.

5.2 Mail ballots

The SOS mail data begins October 14 and is dated by when the state received it, days after the county, and the state moves ballots between days (§3); county mail lists go back to the first ballots received (September 21-22).

County	County mail	State mail (Oct 14-26)	On both	State only (other county)
Harris	38,522	18,748	18,548	200 (35 dated Oct 25, 32 Oct 26)

Webb	622	511	461	50 (49 dated Oct 14)
Hunt	291	597	274	323 (316 dated Oct 14-19)

Brazos (1,622 in the county's lists) has 9 mail ballots at the state. McLennan's list does not separate mail voters; the state has 1,484 McLennan mail voters, all but 15 of them on McLennan's list. Henderson and Angelina post no mail list and Guadalupe's mail lists are scanned images; the state has 302, 779 and 768 mail voters for them.

For these 16 counties the state is the only machine-readable published source. All 16 have state files for each of October 19-26. All report mail ballots (Ector only 2). Nueces's October 25 file holds 534 voters, against 5,569 for October 24 and 6,151 for October 26; the turnout table shows the same figure.

6. Anomalies between county and state data

6.1 State county files include voters of other counties

Across October 14-26, 1,778 voters (1,753 in-person, 25 mail) in the SOS county files appear on a different county's own roster, with the same first name and that county's precinct. The largest numbers are in the SOS files for Travis (191), Dallas (167), Denton (163), Bexar (157), Collin (99), Hays (84), Johnson (75), Tarrant (67), Harris (66) and Brazos (64). No voter appears in two SOS county files, so these are records assigned to the wrong county's file, not duplicates. Anyone using SOS county files alone will slightly overcount each county.

6.2 State files identify voters Tarrant County redacts

Tarrant replaces the name, VUID and address of protected voters with "–Redacted–", keeping only precinct and date: 233 records in its current files (186 mail, 47 early in-person). No other county redacts identities; Harris hides the address (only) of 2,743 named voters.

- **Mail:** the SOS Tarrant mail files list 148 mail voters who are not on Tarrant's mail roster (after excluding one voter of another county). For 129 of them there is a redacted Tarrant mail record with the same precinct and the same date.
- **In person:** the SOS Tarrant files list 79 in-person voters (besides 66 of other counties) who are not on Tarrant's roster on any day; 46 of them match a redacted Tarrant in-person record by precinct.
- **Fewer redacted records each day:** Tarrant's cumulative in-person list held 104 redacted records on October 20, 99 on October 21, 79 on October 22, 69 on October 23, 62 on October 24, 56 on October 25, 55 on October 26 and 47 on October 27; its cumulative mail list held 215 in the October 23 afternoon file, 202 in the evening file, 192 on October 25 and 186 on October 27. A cumulative list should not shrink.

With eight days of data, the match remains close for both voting methods. This continues to indicate that the state publishes the name, VUID and precinct of voters whose identities Tarrant withholds. It cannot be proven record by record, because the redacted rows carry no identifier. Neither source exposes an address.

6.3 Reporting gaps in the state data

- **In-person:** every county has a state file for every day of October 19-25, all complete against the counties' own lists. For October 26 Webb has no state file and Harris's is partial (42,430 of 79,474). Two earlier days remain partial: Gregg's October 19 (2 of 3,677) and Hunt's October 20 (1,724 of 2,044).
- **Mail:** Brazos (9 of 1,622) and Ector (2) report almost none to the state.
- **Turnout table vs. CSV:** Travis, Ellis, Hays, Coryell and Henderson (§3).

6.4 Mail ballots in state data but not in the county's mail list

- **Dallas:** 1,172 state mail voters (besides one voter of another county) are not on Dallas's October 26 mail list; 927 of them are dated October 26 by the state, while the county's list holds 119 ballots received that day.
- **Collin:** 800 (710 dated October 26 and 71 October 25 by the state) are not on its list "through October 26", whose latest ballots are dated October 25.
- **Other lists not yet updated:** Victoria 62 (41 dated October 26, 14 October 24; its mail ballots stop at October 23), Tom Green 45 (35 dated October 26; its list's latest ballots are dated October 24), Wichita 153 (129 dated October 26) and Denton 114 (98 dated October 26) include ballots dated after the county's latest list.
- **Hunt:** the state has 597 Hunt mail voters, the county's files 291 (its mail lists and the October 23 and 24 "BBM" rows); 323 state mail voters are in neither, 316 of them dated October 14-19 by the state.
- **Travis:** 191 state mail voters are on none of Travis's lists (97 dated October 26, 56 October 19 and 24 October 22 by the state).
- **Elsewhere:** Harris 200 (35 dated October 25, 32 October 26), Bexar 140 (83 dated October 15), Montgomery 126, Bell 123, Webb 50 (49 dated October 14), Fort Bend 39, Bowie 36, Smith 32, Cameron 18 (9 dated October 26), El Paso 15, Gregg 15, Galveston 10, Williamson 10, Jefferson 6, Brazoria 5, Randall 4, Hidalgo 3, Grayson 2 and Bastrop 1.

6.5 Precinct differences

- **Williamson:** the October 26 file, like the October 22-25 files, gives a precinct different from the state's for its mail voters (4,689); the October 21 file matched the state for all of them. One in-person row now differs as well. The county's mail precinct column appears to have been scrambled since October 22.
- **Bowie:** the October 20, 21 and 23 early vote reports give a precinct that differs from the state's for 1,566, 1,711 and 1,441 voters (4,718); the October 22 and 24-26 reports match for all voters. The values were checked against the PDFs.
- **Bexar:** 65 voters in the October 22 check-in report (one or none in each other report).
- **Elsewhere,** on matched voters: Harris 1,274 (1,231 in-person), Tarrant 188, Galveston 163 (111 of them in its October 19 file), El Paso 103 (all in-person), Smith 61, Hunt 14, Montgomery 13, Denton 6, Travis 6, Bastrop, Brazoria and Potter 3 each, Dallas 2, and one each in Cameron and Henderson.

Denton and Gregg write the precinct with a two-digit split appended ("418603" for 4186); this is formatting, not a difference.

6.6 Surnames

On matched voters, the surname differs between the county and the state in 72 Collin, 48 Tarrant, 44 Bexar, 42 Denton, 36 Cameron, 34 Dallas and 31 Williamson records, and in 24 or fewer elsewhere (528 in all). In all but 18 of these records the two names share at least one name: they are name changes recorded in one system and not the other, or formatting (counties that write names "FIRST MIDDLE LAST").

6.7 One VUID, two different people

- **Within one county's files:** one VUID is listed for two different voters in Harris's cumulative mail file and in Bowie's October 22 and October 24 mail lists, and for two different people checking in at Bexar on October 19 and October 23. (The Brazoria mail case of the last review no longer appears in Brazoria's current files.)
- **On two counties' rosters:** one VUID is a mail ballot received October 21 on both Bell's and Randall's mail lists, for two people with different names.
- **SOS file vs. a county roster:** 37 VUIDs name a voter in an SOS file and an entirely different person (no name in common) on a county's roster. Eighteen are within one county (Harris 4, Bexar 3, Dallas 3, Brazoria 2, and Bowie, Collin, Denton, El Paso, Montgomery and Tarrant 1 each). Nineteen are across counties: nine on Bell's roster (against the SOS Coryell (3), Fort Bend (2), Lubbock, Randall, Victoria and Wichita files), three on Denton's roster against the SOS Dallas (2) and Tarrant files, two on Harris's against the SOS Bell and Hidalgo files, two on El Paso's against the SOS Harris and Montgomery files, and one each on Dallas's against Collin, Tarrant's against Hidalgo, and McLennan's against Montgomery.

Fifteen of the cross-county VUIDs, including all nine on Bell's roster, are recent registrations in one numeric range (2223365544-2223382143). Bell County's roster gives these VUIDs to different people than the state's files do, so the Bell County Elections office and the SOS should compare them first.

6.8 One voter in two counties' own rosters

Eight are the same person in both counties (same first and last name); one has the same first name and a different last name:

6.9 Mail ballot and in-person vote by the same voter

Eighteen voters are listed both as a returned mail ballot and as an early in-person voter in the same county (three new since the last review):

- **El Paso 6:** mail returned October 6-20; in person by October 19 (2), October 21 (2) and October 22 (1); and, new, one voter whose mail ballot is listed as returned October 20 who voted in person October 26.

- **Dallas 5:** mail October 9 and in person October 19, 20 and 22; one voter in person October 19 whose mail ballot is listed as received October 24; and, new, one voter whose mail ballot is listed as received October 24 who voted in person October 26.
- **Tarrant 2:** in person by October 19 and by October 20; mail ballots recorded October 21 and 22.
- **Denton 1 (new):** mail October 23; in person October 26.
- **Bastrop 1:** mail October 16; in person October 22.
- **Grayson 1:** mail October 2; in person October 20.
- **Jefferson 1:** on the cumulative mail list; in person October 20. The state lists only the in-person vote.
- **Travis 1:** mail October 7; in person October 21.

A voter whose mail ballot has been accepted may not vote in person; these may be cancelled mail ballots, provisional votes or data errors.

6.10 Duplicates within county files

- **Same-day duplicate check-ins:** Angelina 132 (all in the history files posted October 27, each listed two or three times with the same precinct), Grayson 8, Bexar 6, Guadalupe 4, Collin 3, Jefferson 3, Dallas 2, and 1 each in Denton, Galveston, Tom Green, Travis and Webb. Jefferson also lists one VUID in its October 20 and October 23 in-person files (the state lists only October 20).
- **Mail ballot received twice:** 11 Bexar voters appear on two days' received-ballot lists; Bastrop 5 (its cumulative mail CSV lists each with two dates), Travis 5, Montgomery 3, Gregg 2, and 1 each in Bowie, Brazoria, Brazos, Galveston and Harris.

6.11 Identifiers that are not state VUIDs

County	Records	ID length	Lists
Tarrant	420	8 digits (one 7)	mail (312), in-person (108)
Collin	311	6, 7, 9 digits	in-person (245), mail (63), provisional (3)
Denton	159	7 digits	in-person (158), mail (1)
El Paso	69	7 digits	mail (57), in-person (12)
Grayson	62	6, 8, 9 digits	in-person (52), mail (10)
Guadalupe	59	7 digits (one 8)	in-person
Hidalgo	53	8-9 digits	mail (37), in-person (16)
Smith	31	7 digits (one 8)	in-person
Webb	31	8 digits	mail (25), in-person (6)
Gregg	14	6, 7, 11 digits	in-person
Jefferson	10	6, 7, 8 digits	in-person
Bexar	8	8, 9, 11 digits	in-person
Bowie	8	9 or 11 digits	mail
Tom Green	3	9 digits	mail
Henderson	1	8 digits	in-person

These are likely county-internal numbers for voters whose state VUID had not been assigned or synchronized, or (for the 9- and 11-digit cases) a VUID with a digit missing or added. The state files contain none, so these voters cannot be

matched by ID; for 18 of them the state lists a voter with the same name and precinct under a 10-digit VUID (see the supplement). Jefferson also masks nine VUIDs as "**********" (the names are shown).

7. Other county data quality notes

- **Blank VUIDs** (named voters with no ID): Harris 489 mail ballots; Collin 306 (288 provisional); Guadalupe 158 in-person; Grayson 93 in-person; Tom Green 46 in-person; Bell 29 mail; Dallas 22; Bexar 18 in-person; Hunt 13; Fort Bend 10 mail; Jefferson 9 (masked); Wichita 9; Montgomery 3; Bastrop and Hidalgo 2; Brazoria, Gregg and Randall 1. Travis's 955 and Montgomery's 247 Limited Ballot voters have no VUID by design. Tarrant's 233 redacted records also have no VUID (§6.2).
- **No voting date:** Tarrant's, Hidalgo's and Potter's early voting lists, Denton's from October 20, El Paso's from day 2 and McLennan's list carry no date per voter. Jefferson's lists carry neither date nor precinct (the in-person date is the file's). Smith's, Wichita's and Jefferson's mail lists are cumulative, so the date in their file names is the list date.
- **Not yet posted** by the evening of October 27: Gregg's October 21 roster; Tom Green's October 26 roster and mail list. Mail lists that stop before October 25: Victoria (ballots through October 23) and Tom Green (through October 24).
- **Files replaced or re-posted:** Victoria, Potter, Tom Green and Jefferson (mail) post cumulative files; Randall re-posts its two rosters; McLennan posts one list under a new timestamped name; Bastrop renames its mail CSV daily; Brazoria re-posts earlier days' lists; Travis replaced its ZIP again on the evening of October 27; Guadalupe re-posted its in-person rosters under new names; Angelina posted a cumulative October 25 file beside its daily files.
- **Same-day posting:** Collin, Denton, Webb, McLennan, Potter, Randall, Bastrop, Tarrant, Bexar, Bell, Bowie, Cameron, Williamson, Victoria, Gregg and Travis post lists for the current day during that day or that evening; they may change when re-posted. This review used each county's files for October 26 and earlier.
- **Hard-to-read formats:** Guadalupe's mail lists are scanned images, and its in-person rosters print some VUIDs run together with the ZIP code; Wichita's PDFs sit behind a bot challenge and wrap each absentee record onto two lines; Gregg prints long polling-place names past their cells; Smith's lists are in a JavaScript document portal; Randall prints its mail roster sideways; Grayson's check-in workbook is a printed report with its column titles on separate rows; Jefferson posts Excel 97-2003 (.xls) files; Hunt changed its date format on October 24; Henderson changed its layout on October 23 and its title on October 25; Tom Green's October 25 mail list has no column titles.

8. Recommendations

1. **Download daily** through Election Day: Tarrant, Hidalgo, Denton, El Paso and Potter (no voting date per voter), Victoria, Tom Green, Jefferson and McLennan (cumulative files replaced), and Collin, Williamson, Cameron, Dallas, Fort Bend and Harris (latest file only). Save same-named files with the download time.
2. **Prefer county files** for counts and voter lists; use the SOS portal for the 16 counties that post nothing else and as a cross-check. Re-download every SOS day before each comparison, since the state fills in, revises and re-dates them, and do not read SOS mail dates as received dates or the turnout table as a substitute for the county CSVs.
3. **When using SOS county files,** expect voters of other counties in each file (§6.1) and check them against neighboring counties before treating them as anomalies.
4. **Refer to the counties:**
    - the nine voters recorded in two counties (§6.8);

    - the 18 voters with both a mail ballot and an in-person vote, first the three who voted in person on October 26;
    - the shared VUIDs (§6.7), first those on Bell's roster;
    - Williamson's mail precincts since October 22, and Bowie's October 20, 21 and 23 precincts;
    - Angelina's repeated check-ins in the files posted October 27;
    - Hunt's mail ballots in its in-person lists;
    - Bexar's mail ballots received twice;
    - the precinct differences in Harris, Tarrant, Galveston, El Paso and Bexar;
    - the mail lists that trail the state's (Dallas, Collin, Victoria, Tom Green).
5. **Refer to Tarrant County and the Secretary of State:**
    - the publication by the SOS of voters Tarrant redacts, and the shrinking counts of redacted records (§6.2);
    - the SOS files' inclusion of other counties' voters (§6.1), including the votes filed under a second county in §6.8;
    - the re-dating of mail ballots between daily files (§3);
    - the turnout table's Travis, Ellis, Hays, Coryell and Henderson figures (§3).
6. **Repeat this comparison** after early voting closes and after the canvass.

Appendix A. Files

Downloaded files are saved per county:

- county files are saved as `G26_<county file name>`; files a county posts under the same name every day get the download date (`_2026-10-27`), or the download date and time (`_2026-10-27-14-43-12`) for cumulative lists that carry no voting dates (Hidalgo, Potter);
- SOS files are saved as `G26_<COUNTY>.2026 NOVEMBER GENERAL ELECTION.EarlyVoting.<MM_DD_YYYY>.csv`; when the state revises a day, the earlier copy is kept.

The files load in Election Explorer (File → Load Voter Roster); the comparisons in this report were produced from the loader's normalized output. The companion supplement (`Texas_Early_Voting_Roster_Review_2026-10-27_Supplement`) lists each anomalous record's VUID and its location in the county's and the state's files.

Appendix B. Caveats

- In-person comparisons cover October 19-26; where the state's file for a day is partial or missing, that day is shown but left out of the totals.
- County files were downloaded October 20-27 at different times; several counties post same-day lists that are later replaced, and counties keep revising earlier days. The state files were re-downloaded about eight hours after the county files on October 27.
- Day-level counts for cumulative, undated county lists were recovered from consecutive snapshots and attribute voters added late to the day they first appear (Tarrant, §5.1).
- A match between two records means the same VUID; name and precinct differences were checked separately. A match by name, precinct or date without a common VUID (§6.2, §6.11) is an inference, not a confirmed identity.
- This review describes data as published. It does not establish that any voter voted improperly; the records flagged in §6.5-§6.10 have ordinary clerical explanations as well as serious ones, and only the counties can resolve them.
