Texas Early Voting Rosters: County and State Data Review

Election: November 3, 2026 General Election
Data through: Friday, October 30, 2026 (twelfth and last day of in-person early voting)
Prepared: October 31, 2026 (updates the reviews of October 20-30; county files as posted by 10:20 PM October 31, with Travis's ZIP as posted that morning; state files as posted on the night of October 31)
Scope: the 50 most populous Texas counties and the Texas Secretary of State (SOS) roster portal

1. Summary

Texas Election Code §87.121 requires each county to post its early voting rosters (in-person and by mail) daily and to submit them for statewide elections to the Secretary of State, which republishes them. This update compares the county and state lists voter by voter (by Voter Unique Identifier, VUID) for all twelve days of in-person early voting, October 19-30, in the 50 most populous counties.

Key findings:

1. **The two sources agree closely, but not completely, in every county.** Over every day for which both are complete, the county's and the state's lists of early in-person voters agree on 99.0% or more of voters in 30 of the 33 counties with dated county rosters, and on 98.9% in Fort Bend and Hunt and 98.6% in Guadalupe. In none of them do the two lists match exactly: every county has at least one voter on one list and not the other. (In this review a 100% figure is shown only when no voter is on one list and not the other.) Sixteen voters are an in-person voter in one source and a mail voter in the other (Hunt 11, Collin 2, and one each in Dallas, Hidalgo and Cameron).
2. **October 30, the busiest day, is in for every county, but Harris's and Tarrant's state files are only half complete.** All 50 counties have a state in-person file for each of October 19-30. Harris's October 30 file holds 58,701 of the county's 126,397 voters and Tarrant's 31,697 of 62,629; every other county's holds at least 98.5% of the county's count. The state has filled in Harris's October 29 file (88,916 of the county's 88,981). The statewide turnout table shows 743,260 in-person voters for October 30, the most since October 19.
3. **The state keeps revising earlier days.** Since the evening of October 30, 177 county-day counts for October 14-29 changed in the state's files. 122 are mail counts (net +630 voters, 80 of them downward). The 55 in-person counts are net +27,638, almost all of it Harris's October 29 file filled in (+27,204); the other 54 net +434. The state again moved mail ballots between days: Johnson's October 26 mail rose from 206 to 824 while its October 15 fell from 108 to 41; Comal's October 29 rose from 14 to 201 and Williamson's from 1 to 179; Cameron's October 29 rose from 267 to 424 while its October 21, 22 and 26 fell (161 to 113, 94 to 57, 195 to 137); Wichita's October 20 fell from 24 to 0.
4. **Twenty voters are recorded as voting in two counties.** New since the last review: three voters who voted in person in one county on October 23 (Bexar, Travis, Brazos) and in another on October 30 (Harris, Bexar, Harris). All three have the same first and last name in both counties. The state lists each only in the county where the voter first voted (§6.8).
5. **Six more voters have both a mail ballot and an in-person vote,** all of whom voted in person on October 30: one each in Brazoria (mail received September 29), Dallas (October 27), Denton (October 14), El Paso (October 13), Galveston (October 30) and Jefferson (on its mail list through October 30). The state lists only the in-person vote for all six. Forty voters are now listed both ways in the same county (§6.9).
6. **Galveston's October 30 check-in list gives ten voters another voter's VUID.** Ten consecutive rows (7038-7047) carry the VUIDs of ten other voters who checked in the same day further down the list, with different names and precincts. The state's October 30 Galveston file holds none of the ten VUIDs (§6.7).
7. **The turnout table still overstates Travis, Ellis, Hays, Coryell and Henderson, and Orange, Potter and Smith for October 29.** For October 23 the portal's table shows 50,272 Travis in-person voters, against 40,486 in the state's own Travis file and 40,453 in Travis County's roster. For October 30 it shows 30,477 Tarrant voters, fewer than the state's still-partial Tarrant file (31,697).
8. **Mail lists that trail the state's.** Collin's mail list posted October 30 lacks 599 state mail voters (402 dated October 30 by the state, 107 October 29). Galveston has posted no mail list for October 27 or 29, and lacks 324 state mail voters (218 dated October 29, 91 October 27). Wichita's latest list runs through October 29 and lacks 169 (105 dated October 29), Grayson's runs through October 29 and lacks 61 (59 dated October 30), and Tom Green's runs through October 28 and lacks 66. Cameron's list has caught up (21 missing, down from 357).
9. **Five counties had posted nothing for October 30 by the night of October 31:** Grayson, Henderson and Angelina (in-person), Tom Green (nothing since its October 28 roster) and Guadalupe (no in-person roster since October 27).
10. **New file names.** Dallas renamed its in-person file again ("In-Person-Early-Voting-Details-Report_10.30.26.csv") and added a turnout-by-location workbook; Collin's in-person list is again named "early-voting-through-…"; Jefferson's in-person list dropped "Voting" from its name ("JeffersonCountyInPerson10302026.xls"); Fort Bend's files gained a "_1" suffix; Bexar's October 30 check-in list is again named for 2028 ("10302028"). All load without change to the loader.
11. **Williamson's mail precincts are still wrong.** Its latest file (posted October 31) gives a precinct different from the state's for 4,685 mail voters (and three in-person voters). **Bowie's October 20, 21 and 23 reports** disagree with the state on the precinct of 4,717 voters; **Brazos's mail precincts** differ for 163 voters.
12. **The state's county files contain voters of other counties.** Across October 14-30, 2,841 voters (2,804 in-person, 37 mail) appear in an SOS county file while being on a different county's own roster, with that county's precinct.
13. **The state's files continue to name voters that Tarrant County redacts.** Tarrant's cumulative in-person list held 50 redacted records on October 31 (the list through October 30), down from 51; its cumulative mail list held 168, down from 169.
14. **Records that warrant review by the counties** (none is proof of wrongdoing; most have clerical explanations):

- 40 voters listed both as a returned mail ballot and as an early in-person voter in the same county (Dallas 16, El Paso 8, Jefferson 4, Grayson 3, Tarrant 2, Tom Green 2, Travis 2, and one each in Brazoria, Denton and Galveston);
- 74 VUIDs that name entirely different people in two records, 13 of them within Galveston's own files and 12 on Bell's roster;
- 191 same-day duplicate check-ins in 12 counties (154 of them in Angelina), and 32 mail ballots listed as received on two days (15 in Bexar);
- precinct differences besides Williamson, Bowie and Brazos: Harris 3,186, Tarrant 285, El Paso 253, Galveston 186, Smith 115, Bexar 70.

2. Scope and method

Counties (by 2025 Census population):

- Ranks 1-20: Harris, Dallas, Tarrant, Bexar, Travis, Collin, Denton, Fort Bend, Hidalgo, El Paso, Montgomery, Williamson, Cameron, Brazoria, Bell, Galveston, Nueces, Lubbock, Hays, Webb.
- Ranks 21-50: McLennan, Jefferson, Smith, Brazos, Ellis, Johnson, Kaufman, Comal, Guadalupe, Midland, Parker, Ector, Grayson, Randall, Taylor, Rockwall, Wichita, Gregg, Hunt, Liberty, Tom Green, Bastrop, Potter, Bowie, Victoria, Henderson, Angelina, Orange, Coryell, Walker.

Sources:

- each county's own roster files, downloaded daily October 20-31. 34 counties post their own rosters, and all 34 are compared in the tables below (Guadalupe's mail lists are scanned images, so only its in-person rosters are compared). The other 16 (Nueces, Lubbock, Hays, Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker) link to the SOS portal;
- the SOS portal's per-county early voting CSVs for October 14-30, for all 50 counties, all days re-downloaded on the night of October 31, since the state revises them (a second complete pass found no further change);
- the SOS turnout tables for October 19-30.

Method. All files were read with Election Explorer's roster loader, which normalizes each county's layout to VUID, precinct, name, voting method and date. For every county file, the number of VUIDs loaded matches an independent count of the 10-digit identifiers in the raw file exactly for 456 of the 465 files read. Four of the other nine are the corrections listed below (rows dated after October 30 and Tom Green's partial day, left out on purpose). Of the remaining five: Dallas's in-person CSV and El Paso's October 30 file each hold one 10-digit number in an address, not a voter; one Travis mail workbook differs by one identifier, as in earlier reviews; in Guadalupe's October 26 roster the loader finds 14 VUIDs the independent count misses (the PDF prints them run together with the ZIP code); and in its October 27 roster, the loader keeps 20 rows without a VUID, and the independent count finds 12 more VUIDs than the loader reads. No loader update was needed for this review. Webb's October 28 mail list gives no VUIDs; its voters were matched by name to the state's Webb mail voters (exact last and first name, or the same last name with one first name the start of the other), which assigned VUIDs to 47 of its 52 rows. Corrections made before comparing: mail ballots the county lists as received October 31, after the period of this review, are left out (Tarrant 818, Williamson 305, Galveston 4); Tom Green's latest roster (posted October 29, named "102826") holds 330 records of October 29, part of that day, which are left out. Angelina's lists were taken from its cumulative October 25 file and its October 26-29 files. The lists were then compared by VUID:

- *early in-person, by day*: the county's in-person voters for each of October 19-30 vs. the SOS's IN-PERSON voters for that date. For counties whose lists are cumulative and undated (Tarrant, Hidalgo, Denton, El Paso, Potter), each day was recovered from consecutive daily snapshots (a day's voters = that day's snapshot minus the previous day's). A day counts toward the totals only when both sources have it and the state's file holds at least 90% of the county's count;
- *mail*: the county's latest mail list (or all daily files) vs. the SOS's MAIL-IN voters for October 14-30.

"County-only" and "state-only" voters were checked against the other 49 counties' files. Name and precinct comparisons ignore formatting (case, spacing, leading zeros, "Precinct"/"P"/"S" prefixes, and a two-digit precinct split such as "418603" for precinct 4186). Voter names and VUIDs are deliberately not reproduced in this report; the companion supplement lists the VUIDs and file locations of the anomalies for county and state staff.

3. The Secretary of State portal

Where: "Election Information & Turnout Data", `https://goelect.txelections.civixapps.com/ivis-evr-ui/evr`. Pick an election and an early voting date, then *Submit*: a table of registered voters, in-person and mail turnout per county, with a **CSV Download** per county under *Voter Details Report*.

How the data is served. The page fetches JSON whose `upload` field is the file in base64:

Data	Request
Elections, early voting dates and county ids	`/api-ivis-system/api/v1/getFile?type=EVR_ELECTION`
Turnout table for one date	`/api-ivis-system/api/v1/getFile?type=EVR_EARLYVOTING&electionId=53815&electionDate=10/30/2026`
One county's voter CSV for one date	`/api-ivis-system/api/v1/getFileByFormat?type=EVR_EARLYVOTING&electionId=53815&countyId=<id>&county=<NAME>&electionDate=<MM/DD/YYYY>&format=CSV`

County ids follow alphabetical order, except that the portal sorts McLennan after McCulloch (id 161). An empty response means the county reported nothing for that day.

File contents. `VOTER_NAME` ("LAST, FIRST MIDDLE"), `ID_VOTER` (VUID), `VOTING_METHOD` (`IN-PERSON` / `MAIL-IN`), `PRECINCT`. There is **no address and no date column**. A county CSV holds only the voters credited on that date.

Timeliness and revisions. A day's files fill in over the following day or two. By the night of October 31, all 50 counties had an in-person file for each of October 19-30. Harris's October 29 file, partial a day earlier, is now complete (88,916 of the county's 88,981). For October 30, Harris's file holds 58,701 of 126,397 and Tarrant's 31,697 of 62,629; every other county's at least 98.5% (Fort Bend 31,556 of 32,032). The only other partial files are Gregg's October 19 and Hunt's October 20, partial since the first week. Nueces's October 30 file holds 9,456 voters; its October 25 and 27 files remain small (534 and 1,889). Re-downloading every day for every county on the night of October 31 changed 115 files for October 14-29 from the download earlier that evening. Compared with the files used in the October 30 review, 177 county-day counts for October 14-29 differ: 122 mail counts (net +630 voters, 80 of them downward) and 55 in-person counts (net +27,638, of which Harris's October 29 file +27,204; Collin's October 29 +157, Bexar's +65, Williamson's +46 and Dallas's +40; 7 downward). The state re-dates mail ballots as well as adding them: Johnson's October 26 mail rose from 206 to 824 while its October 15 fell from 108 to 41; Comal's October 29 rose from 14 to 201 and Williamson's from 1 to 179; Cameron's October 29 rose from 267 to 424 while its October 21 fell from 161 to 113, its October 22 from 94 to 57 and its October 26 from 195 to 137; Wichita's October 22 rose from 143 to 200 while its October 20 fell from 24 to 0 and its October 28 from 142 to 109; Hays's October 28 rose from 22 to 55 while its October 22 fell from 24 to 12.

Mail dates. The date of an SOS mail file is not the day the county received the ballot, and the state moves ballots from one day's file to another. In Travis, the state's October 16 mail voters are almost all ballots the county lists as received October 13, and its October 19 mail voters mostly the county's October 14 ballots. Mail comparisons in this review are therefore made over all days together.

Turnout table vs. CSVs. The statewide table now shows 784,600 in-person voters for October 19, 745,514 for October 20, 684,258 for October 21, 633,713 for October 22, 701,242 for October 23, 518,768 for October 24, 268,459 for October 25, 584,109 for October 26, 551,199 for October 27, 549,465 for October 28, 590,402 for October 29 and 743,260 for October 30 (7,354,989 in all), and 259,915 mail voters. It agrees with the state's CSVs for every county and day except Travis (October 23: table 50,272, CSV 40,486), Ellis (October 23: 8,108 vs. 6,326), Hays (October 22: 10,861 vs. 8,791), Coryell (October 20: 1,867 vs. 1,442), Henderson (October 25: 513 vs. 441), for October 29 Orange (1,602 vs. 1,288), Potter (1,912 vs. 1,560) and Smith (5,130 vs. 4,960), whose own rosters show 1,556 and 4,994 for Potter and Smith, and for October 30 Tarrant (30,477 vs. 31,697, both well short of the county's 62,629).

Name formatting. The SOS appends name suffixes to the middle name without a space ("RAYJR"), which causes apparent name mismatches against county files.

4. How each county posts its rosters

"Cumulative" means each new file contains the earlier ones; "daily" means each file holds only that day.

4.1 Counties 1-20

County	Where	Format	Granularity	Voting date per voter	Download daily?
Harris	harrisvotes.com, Election Rosters	ZIP of CSV	Early voting one CSV per day, all in one ZIP replaced daily; mail cumulative	Yes	Recommended
Dallas	dallascountyvotes.org, election page	XLSX; in-person details as CSV	Cumulative, with earlier days revised; file names change often (now "In-Person-Early-Voting-Details-Report_10.30.26.csv"), and a turnout-by-location workbook from October 30	Yes	Recommended
Tarrant	tarrantcountytx.gov, current election	ZIP of TSV	Cumulative, same file name; files for the current day posted the same evening	Mail yes; **early voting no**	**Yes**

County	Where	Format	Granularity	Voting date per voter	Download daily?
Bexar	elections.bexar.gov Document Center	PDF	Daily; the October 29 files renamed ("Early Vote Ballots - 2026 - 10 - 29 …", "Received Mail Ballots - 2023-10-29 …"), the October 30 files under the earlier names again; the October 27, 28 and 30 check-in lists are named "10272028", "10282028" and "10302028"	Yes	No
Travis	votetravis.gov, one ZIP of daily workbooks	ZIP of XLSX	Daily workbooks in one ZIP, replaced each morning and again in the evening; corrections added beside the originals ("_UPDATED", "_UPDATED_2", "(UPDATE)")	Yes	No
Collin	collincountytx.gov/Elections/rosters	XLSX	Cumulative, posted the same evening (in-person list named "early-voting-through-…" again)	Yes	Recommended
Denton	votedenton.gov, rosters page	XLSX	Early voting cumulative, **undated from October 20**, posted the same evening; mail cumulative	October 19 only	**Yes**
Fort Bend	fortbendcountytx.gov, Early Voting Statistics	XLSX	Cumulative from October 21 (October 30 files named "_1")	Yes	Recommended
Hidalgo	hidalgocounty.us Document Center (updated in place)	CSV / XLSX	Cumulative	**No**	**Yes**
El Paso	epcountyvotestx.gov, Current Election	CSV (mail), XLSX	Mail cumulative (latest through October 30); early voting **cumulative from day 2, undated**	Mail yes; early voting no	**Yes**
Montgomery	elections.mctx.org, Early Voting Roster	ZIP of CSV per day	Daily	Yes	No
Williamson	wilcotx.gov Document Center (one document replaced)	XLSX	Cumulative, posted the same evening (the October 31 file includes October 31 mail)	Yes	Recommended
Cameron	cameroncountytx.gov, Elections results	XLSX (per jurisdiction)	Cumulative, replaced; mail list through October 30	Yes	Recommended
Brazoria	brazoriacountyclerktx.gov, Voter Lists	XLSX	Daily; earlier days' files re-posted (the October 27 and 29 mail lists again on October 31)	Yes	No
Bell	bellcountytx.com, Daily Early Voting Reports	PDF	Daily, posted the same evening	Yes	No
Galveston	galvestonvotes.org, Current Elections	CSV (mail), XLSX	Daily; mail lists every day or two (none for October 25, 27 or 29)	Yes	No
Webb	webbcountytx.gov, Daily Voted List	PDF	Daily, posted the same day; the October 28 mail list gives a county certificate number instead of the VUID (the October 29 and 30 lists give VUIDs)	Yes	No
Nueces, Lubbock, Hays	link to the SOS portal	SOS CSV	Daily (SOS)	File date	Re-download periodically

4.2 Counties 21-50

County	Own roster	Format and posting
McLennan	Yes	One PDF list of early voters, replaced each evening under a timestamped name; no method or date per voter
Jefferson	Yes	Excel 97-2003 (.xls) files on jeffcotxvotes.gov: one in-person list per day (VUID and name only; the October 30 list named "JeffersonCountyInPerson…") and a cumulative mail list renamed for the day it runs through (latest: through October 30); thirteen in-person rows mask or omit the VUID
Smith	Yes	Daily PDFs in a Laserfiche public portal; in-person lists daily, absentee lists cumulative
Brazos	Yes	Daily PDFs
Grayson	Yes	Daily XLSX check-in reports and absentee lists; nothing for October 30 by the night of October 31
Randall	Yes	Two PDFs re-posted daily (cumulative early voting roster with check-in time; mail roster printed sideways)
Wichita	Yes	PDFs behind a bot challenge that blocks automated downloads (downloaded by hand: check-ins through October 30, absentee list of October 29); daily check-ins, cumulative absentee lists every few days
Gregg	Yes	PDFs (check-ins, mail list); October 21 still not posted; latest mail list October 26-29
Hunt	Yes	PDFs; cumulative through October 20, daily from October 21; mail ballots appear in the daily lists with "BBM" as the polling place; dates written "10.24.26" from October 24
Tom Green	Yes	PDFs; the roster and mail list are cumulative and named for the day before they are posted: the latest posting (October 29, "102826") runs through October 28 and holds part of October 29; nothing new by the night of October 31
Bastrop	Yes	Daily CSVs, posted the same evening; mail CSV re-posted under a new name each day
Potter	Yes	Two PDFs replaced daily; early voting roster cumulative and undated
Bowie	Yes	Daily PDFs (ballots by mail received, early vote history with precinct)
Victoria	Yes	One PDF and XLSX ("mail and in person"), cumulative, posted under each day's date
Henderson	Yes	Daily PDFs; layout changed October 23 (Voter_ID, Voter_Name, Voting Precinct, Timestamp or Date; the October 25 list titled "Voter Turnout"); nothing for October 30 by the night of October 31
Angelina	Yes	Daily PDFs (early voting history); no mail list; October 23-26 posted together October 27, the October 25 file cumulative (October 19-25); the October 29 file printed two pages wide without column titles; nothing for October 30 by the night of October 31
Guadalupe	Yes	Returned-mail PDFs, scanned images (not machine-readable); in-person rosters for each day, October 19-26 in one layout and October 27 in another (a check-in report printed to PDF); no roster for October 28, 29 or 30 by the night of October 31
Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker	No	Link to the SOS portal

5. County data compared with state data

5.1 Early in-person voters by day

Counts are distinct VUIDs (county voters without a VUID are excluded). "On both", "County only" and "State only" add up the days on which both sources are complete. "Agree" is the voters on both lists as a share of the larger list; it is 100% only when the county-only and state-only counts are both 0, and otherwise is rounded down (to two decimals from 99.9%), so a near-match is never shown as 100%. Hunt's counts exclude its mail ballots. McLennan's list (58,840 voters, posted the evening of October 30) contains all but 120 of the state's 57,632 McLennan in-person and mail voters for October 14-30. Potter's first two snapshots were posted on the same day, so its October 19 and 20 cannot be separated. Harris's and Tarrant's October 30 (the state's files are partial) are left out of their totals. Not posted: Gregg's October 21, Guadalupe's October 28-30, Tom Green's October 29 and 30 (its 330 partial-day records of October 29 are left out), and Grayson's, Henderson's and Angelina's October 30.

Most state-only voters are voters of other counties (§6.1) or, in Tarrant, voters the county lists a day later than the state and redacted voters (§6.2). Most county-only voters are a few dozen to a few hundred per day that the state has not received.

5.2 Mail ballots

The SOS mail data begins October 14 and is dated by when the state received it, days after the county, and the state moves ballots between days (§3); county mail lists go back to the first ballots received (September 21-22).

Webb	777	738	688	50 (49 dated Oct 14)
Hunt	506	811	473	338 (316 dated Oct 14-19)

McLennan's list does not separate mail voters; the state has 1,626 McLennan mail voters, all but 26 of them on McLennan's list. Henderson and Angelina post no mail list and Guadalupe's mail lists are scanned images; the state has 286, 848 and 1,036 mail voters for them. Webb's count includes the 47 voters of its October 28 list matched by name (§2); the other 5 on that list, with no state mail voter of that name, are not counted.

For these 16 counties the state is the only machine-readable published source. All 16 have state files for each of October 19-30. All report mail ballots (Ector only 2). Nueces's October 25 file holds 534 voters and its October 27 file 1,889, against 5,569 for October 24, 6,151 for October 26, 5,954 for October 28, 6,344 for October 29 and 9,456 for October 30; the turnout table shows the same figures.

6. Anomalies between county and state data

6.1 State county files include voters of other counties

Across October 14-30, 2,841 voters (2,804 in-person, 37 mail) in the SOS county files appear on a different county's own roster, with the same first name and that county's precinct. The largest numbers are in the SOS files for Travis (307), Dallas (262), Bexar (238), Denton (227), Collin (149), Johnson (127), Hays (125), Harris (122), Tarrant (115) and Brazos (103). No voter appears in two SOS county files, so these are records assigned to the wrong county's file, not duplicates. Anyone using SOS county files alone will slightly overcount each county.

6.2 State files identify voters Tarrant County redacts

Tarrant replaces the name, VUID and address of protected voters with "–Redacted–", keeping only precinct and date: 211 records in its current files through October 30 (161 mail, 50 early in-person). No other county redacts identities; Harris hides the address (only) of named voters.

- **Mail:** the SOS Tarrant mail files list 145 mail voters who are not on Tarrant's mail roster (144 after excluding one voter of another county). For 115 of them there is a redacted Tarrant mail record with the same precinct and the same date.
- **In person:** the SOS Tarrant files list 96 in-person voters (besides 114 of other counties) who are not on Tarrant's roster on any day; 48 of them match a redacted Tarrant in-person record by precinct.
- **Redacted counts:** Tarrant's cumulative in-person list held 104 redacted records on October 20, falling each day to 47 in the afternoon file of October 27, then 53 in the evening file of October 27 and on October 29, 51 on October 30 and 50 on October 31 (the list through October 30); its cumulative mail list held 215 in the October 23 afternoon file, 202 in the evening file, 192 on October 25, 186 on October 27, 182 in the October 27 evening file, 175 on October 29, 169 on October 30 and 168 on October 31 (7 of them received October 31). A cumulative list should not shrink.

With twelve days of data, the match remains close for both voting methods. This continues to indicate that the state publishes the name, VUID and precinct of voters whose identities Tarrant withholds. It cannot be proven record by record, because the redacted rows carry no identifier. Neither source exposes an address.

6.3 Reporting gaps in the state data

- **In-person:** every county has a state file for every day of October 19-30; Harris's and Tarrant's October 30 files are about half complete (58,701 of 126,397 and 31,697 of 62,629). Two earlier days remain partial: Gregg's October 19 (3 of 3,677) and Hunt's October 20 (1,724 of 2,044). Nueces's October 25 and 27 files are small (534 and 1,889 voters).
- **Mail:** Ector (2) reports almost none to the state.
- **Turnout table vs. CSV:** Travis, Ellis, Hays, Coryell and Henderson, for October 29 Orange, Potter and Smith, and for October 30 Tarrant (§3).

6.4 Mail ballots in state data but not in the county's mail list

- **Lists not yet updated or not posted:** Collin 599 (402 dated October 30 by the state, 107 October 29 and 52 October 28; its list posted October 30 runs through October 30), Galveston 324 (218 dated October 29 and 91 October 27, days for which Galveston has posted no mail list), Wichita 169 (105 dated October 29 and 50 October 30; its latest list runs through October 29), Gregg 80 (56 dated October 29), Tom Green 66 (48 dated October 29; its latest list runs through October 28) and Grayson 61 (59 dated October 30; its latest list runs through October 29). Cameron's list has caught up (21, down from 357).
- **Webb:** 50 (49 dated October 14 by the state).
- **Hunt:** the state has 811 Hunt mail voters, the county's files 506 (its mail lists and the "BBM" rows in its daily lists); 338 state mail voters are in neither, 316 of them dated October 14-19 by the state.
- **Travis:** 229 state mail voters are on none of Travis's lists (96 dated October 26, 57 October 19, 24 October 22 and 20 October 30 by the state).
- **Dallas:** 195 state mail voters (besides two voters of other counties) are not on Dallas's October 30 mail list (51 dated October 26, 46 October 25 and 40 October 20).
- **Elsewhere:** Harris 301 (39 dated October 29, 35 October 28, 35 October 25), Bexar 193 (83 dated October 15, 43 October 28), Montgomery 174, Bell 171 (31 dated October 19, 22 October 30), Fort Bend 75, Bowie 61 (16 dated October 20, 14 October 30), Brazos 24, Denton 22, El Paso 16, Victoria 14, Brazoria 13, Smith 12, Williamson 8, Jefferson 7, Hidalgo 3 and Randall 3.

6.5 Precinct differences

- **Williamson:** the file posted October 31, like the October 22-29 files, gives a precinct different from the state's for its mail voters (4,685); the October 21 file matched the state for all of them. Three in-person rows differ as well. The county's mail precinct column appears to have been scrambled since October 22.
- **Bowie:** the October 20, 21 and 23 early vote reports give a precinct that differs from the state's for 1,566, 1,710 and 1,441 voters (4,717); the October 22 and 24-30 reports match for all voters. The values were checked against the PDFs.
- **Brazos:** 163 mail voters, 141 of them in its mail list of October 19-20, and one in-person voter.
- **Bexar:** 65 voters in the October 22 check-in report, and five in three other reports.
- **Elsewhere,** on matched voters: Harris 3,186 (3,113 in-person), Tarrant 285 (253 in-person), El Paso 253 (all in-person), Galveston 186 (111 of them in its October 19 file), Smith 115 (20 of them in its October 30 list), Denton 17 (all in its October 30 list), Montgomery 17, Hunt 15, Travis 12, Dallas 5, Potter 4, Bastrop and Brazoria 3 each, Fort Bend 2, and one each in Cameron, Henderson, Victoria and Wichita.

Denton and Gregg write the precinct with a two-digit split appended ("418603" for 4186); this is formatting, not a difference.

6.6 Surnames

On matched voters, the surname differs between the county and the state in 148 Collin, 84 Bexar, 79 Denton, 72 Tarrant, 57 Williamson, 52 Cameron and 50 Brazoria records, and in 45 or fewer elsewhere (941 in all). In all but 32 of these records the two names share at least one name: they are name

changes recorded in one system and not the other, or formatting (counties that write names "FIRST MIDDLE LAST").

6.7 One VUID, two different people

- **Within one county's files:** in Galveston's October 30 check-in list, ten consecutive rows (7038-7047) carry the VUIDs of ten other voters who checked in later in the same list, with different names and precincts; the state's October 30 Galveston file holds none of the ten VUIDs (new). Also: one VUID is listed for two different voters in Harris's cumulative mail file, in Bowie's October 22 and October 24 mail lists, on two rows of Brazoria's October 27 mail list and two rows of Galveston's October 27 check-ins, and for two different people checking in at Bexar on October 19 and October 23; two VUIDs each on two rows of Galveston's October 28 mail list, one VUID on two rows of Dallas's in-person list (October 21 and October 28), and one VUID for two different people in Hunt's October 27 and October 28 mail rows.
- **On two counties' rosters:** two VUIDs are each a mail ballot on both Bell's and Randall's mail lists (received October 21 and October 27), for two people with different names; a Bell mail ballot of October 26 is also on Wichita's October 29 absentee list, and a Bell in-person voter of October 20 has a VUID on Fort Bend's in-person list for October 28. New: a Bell mail ballot of October 15 has a VUID that Randall lists for an in-person voter of October 30, and a Bell mail ballot of October 26 one that Fort Bend lists for an in-person voter of October 30; a Bexar in-person voter of October 19 has a VUID on Brazoria's October 29 mail list; and an El Paso in-person voter (in its list from October 21) has a VUID that Harris lists for an in-person voter of October 30. In each case the two people have no name in common.
- **SOS file vs. a county roster:** 60 VUIDs name a voter in an SOS file and an entirely different person (no name in common) on a county's roster. Thirty-two are within one county (Harris 6, Dallas 4, Bexar 3, Guadalupe 3, Brazoria, Galveston, Montgomery and Tarrant 2 each, and Bowie, Collin, Denton, El Paso, Grayson, Hunt, McLennan and Travis 1 each); the Harris sixth and the McLennan one are new, both in the state's October 30 files. Twenty-eight are across counties: twelve on Bell's roster (against the SOS Coryell (3), Fort Bend (3), Randall (3), Lubbock, Victoria and Wichita files; the third Fort Bend and Randall ones are new, in their October 30 files), four on Harris's against the SOS Hidalgo (2), Bell and Denton files, three on Denton's roster against the SOS Dallas (2) and Tarrant files, three on El Paso's against the SOS Harris, Montgomery and Travis files, one (new) on Brazoria's against the SOS Bexar October 19 file, and one each on Dallas's against Collin, Tarrant's against Hidalgo, McLennan's against Montgomery, Collin's against Tom Green and Williamson's against Travis.

Nineteen of the VUIDs in this section, including all twelve on Bell's roster, are recent registrations in one numeric range (2223365544-2223382143). Bell County's roster gives these VUIDs to different people than the state's files and three other counties' rosters do, so the Bell County Elections office and the SOS should compare them first.

6.8 One voter in two counties' own rosters

Seventeen are the same person in both counties (same first and last name); three have the same first name and a different last name:

Tarrant's, Hidalgo's and El Paso's lists carry no voting date, so "from October 28" is the first daily list that contains the voter; a voter added late to a cumulative list appears on the day of that list (§5.1).

6.9 Mail ballot and in-person vote by the same voter

Forty voters are listed both as a returned mail ballot and as an early in-person voter in the same county (six new since the last review, all of whom voted in person on October 30; the state lists only the in-person vote for each of the six):

- **Dallas 16:** mail October 9 and in person October 19, 20, 22 and 27; mail October 24 and in person October 19, 26 and 27 (two); five voters who voted in person October 28, three with mail ballots listed as received October 24 and two October 25; two who voted in person October 29 with mail ballots listed as received October 24; and, new, one who voted in person October 30 with a mail ballot listed as received October 27.
- **El Paso 8:** mail returned October 6-20; in person by October 19 (2), October 21 (2), October 22 (1), October 26 (1), October 27 (1) and, new, October 30 (mail October 13).
- **Jefferson 4:** on the cumulative mail list; in person October 20, two in person October 29, and, new, one in person October 30.
- **Grayson 3:** mail October 2, in person October 20; mail October 5, in person October 27; mail October 14, in person October 29.
- **Tarrant 2:** in person by October 19 and by October 20; mail ballots recorded October 21 and 22.
- **Tom Green 2:** mail received September 30 and October 5; both in person October 27. The state lists one of them in its Tom Green October 27 file (in person) and the other in neither Tom Green file.
- **Travis 2:** mail October 7, in person October 21; in person October 28 with a mail ballot listed as received October 29.
- **New, one each:** Brazoria (mail September 29, in person October 30), Denton (mail October 14, in person October 30) and Galveston (mail received October 30, in person October 30).

A voter whose mail ballot has been accepted may not vote in person; these may be cancelled mail ballots, provisional votes or data errors.

6.10 Duplicates within county files

- **Same-day duplicate check-ins:** Angelina 154 (121 in its cumulative October 25 history file, 11 in its October 26 file and 22 in its October 27-29 files, each listed two or three times with the same precinct), Grayson 8, Bexar 6, Collin 4, Guadalupe 4, Jefferson 4, Dallas 3, Brazoria 2, Galveston 2, Tom Green 2, and 1 each in Travis and Webb. Jefferson also lists one VUID in its October 20 and October 23 in-person files (the state lists only October 20). Galveston's repeated VUIDs that belong to two different people are counted in §6.7 only.
- **Mail ballot received twice:** 15 Bexar voters appear on two days' received-ballot lists; Travis 6, Montgomery 3, Gregg 2, Hunt 2, and 1 each in Bowie, Brazos, Galveston and Harris.

6.11 Identifiers that are not state VUIDs

County	Records	ID length	Lists
Collin	588	6, 7, 8, 9 digits	in-person (442), mail (141), provisional (5)
Tarrant	557	8 digits (one 7, one 9)	mail (373), in-person (184)
Denton	263	7 digits	in-person
El Paso	81	7 digits	mail (64), in-person (17)
Grayson	81	6, 8, 9 digits	in-person (69), mail (12)
Guadalupe	69	7 digits (one 8)	in-person

County	Records	ID length	Lists
Hidalgo	69	8-9 digits	mail (49), in-person (20)
Smith	46	7 digits (one 8)	in-person
Webb	35	8 digits	mail (27), in-person (8)
Jefferson	33	6, 7, 8, 9, 11 digits	in-person
Gregg	22	6, 7, 11 digits	in-person
Bexar	9	4, 8, 9, 11 digits	in-person
Bowie	9	9 or 11 digits	mail
Tom Green	3	9 digits	mail
Henderson	1	8 digits	in-person
Travis	1	9 digits	mail

These are likely county-internal numbers for voters whose state VUID had not been assigned or synchronized, or (for the 9- and 11-digit cases) a VUID with a digit missing or added. The state files contain none, so these voters cannot be matched by ID; for 29 of them the state lists a voter with the same name and precinct under a 10-digit VUID (see the supplement). Travis's one 9-digit identifier, on its October 29 mail list, is almost certainly a VUID with one digit dropped: the state lists a Travis mail voter of the same name and precinct under a 10-digit VUID that contains it. Webb's October 28 mail list uses county certificate numbers throughout and is not counted here (§2).

7. Other county data quality notes

- **Blank VUIDs** (named voters with no ID): Harris 769 mail ballots; Collin 756 (717 provisional); Guadalupe 178 in-person; Grayson 136 in-person; Tom Green 67 in-person; Bell 47 mail; Dallas 28; Hunt 28; Bexar 23 in-person; Fort Bend 16 (15 mail); Jefferson 13 (masked or omitted); Wichita 9; Webb 5 (its October 28 mail voters with no state match); Hidalgo and Montgomery 3; Bastrop and Gregg 2; Brazoria and Randall 1. Travis's 3,482 and Montgomery's 754 Limited Ballot voters have no VUID by design. Tarrant's 211 redacted records also have no VUID (§6.2).
- **No voting date:** Tarrant's, Hidalgo's and Potter's early voting lists, Denton's from October 20, El Paso's from day 2 and McLennan's list carry no date per voter. Jefferson's lists carry neither date nor precinct (the in-person date is the file's). Smith's, Wichita's and Jefferson's mail lists are cumulative, so the date in their file names is the list date. Bowie's mail lists misprint three dates (read as 2036 in its October 9 list and as 2023 twice in its October 23 list) and one in its October 28 list cannot be read; two of Brazoria's mail rows and three of Victoria's October 30 in-person rows have no date.
- **Not yet posted** by the night of October 31: Gregg's October 21 roster; Guadalupe's October 28-30; Tom Green's October 29 and 30 (its latest roster, posted October 29, runs through October 28); Grayson's, Henderson's and Angelina's October 30; Galveston's mail lists for October 27 and 29.
- **Files replaced or re-posted:** Victoria, Potter, Tom Green and Jefferson (mail) post cumulative files; Randall re-posts its two rosters; McLennan posts one list under a new timestamped name; Bastrop renames its mail CSV daily; Brazoria re-posts earlier days' lists; Travis replaces its ZIP each morning and evening and adds corrections beside the originals; Dallas renamed its in-person file again; Bexar renamed its October 29 files and returned to its earlier names on October 30; Angelina posted a cumulative October 25 file beside its daily files.
- **Same-day posting:** Collin, Denton, Webb, McLennan, Potter, Randall, Bastrop, Tarrant, Bexar, Bell, Bowie, Cameron, Williamson, Victoria, Gregg, Brazoria and Travis post lists for the current day during that day or that evening; they may change when re-posted. Tarrant's and Williamson's mail lists posted October 31 include ballots received that day, which are left out here (§2).
- **Hard-to-read formats:** Guadalupe's mail lists are scanned images, its in-person rosters print some VUIDs run together with the ZIP code, and its October 27 roster is in a different layout; Gregg prints long polling-place names past their cells; Wichita's PDFs sit behind a bot challenge and wrap each absentee record onto two lines; Smith's lists are in a JavaScript document portal; Randall prints its mail roster sideways; Grayson's check-in workbook is a printed report with its column titles on separate rows; Jefferson posts Excel 97-2003 (.xls) files; Hunt changed its date format on October 24; Henderson changed its layout on October 23 and its title on October 25; Bexar misdated its October 27, 28 and 30 file names and spaced out the date of its October 29 file; Webb replaced the VUID in its October 28 mail list with a certificate number; Angelina printed its October 29 file two pages wide.

8. Recommendations

1. **Download daily** through Election Day: Tarrant, Hidalgo, Denton, El Paso and Potter (no voting date per voter), Victoria, Tom Green, Jefferson and McLennan (cumulative files replaced), and Collin, Williamson, Cameron, Dallas, Fort Bend and Harris (latest file only). Save same-named files with the download time. Mail lists keep growing through Election Day.
2. **Prefer county files** for counts and voter lists; use the SOS portal for the 16 counties that post nothing else and as a cross-check. Re-download every SOS day before each comparison, since the state fills in, revises and re-dates them, and do not read SOS mail dates as received dates or the turnout table as a substitute for the county CSVs. Harris's and Tarrant's October 30 state files should be re-checked once complete.
3. **When using SOS county files,** expect voters of other counties in each file (§6.1) and check them against neighboring counties before treating them as anomalies.
4. **Refer to the counties:**

    - the twenty voters recorded in two counties (§6.8), first the three new ones who voted again on October 30;
    - the 40 voters with both a mail ballot and an in-person vote, first the six new ones of October 30;
    - the shared VUIDs (§6.7), first those on Bell's roster and the ten rows of Galveston's October 30 check-in list;
    - Williamson's mail precincts since October 22, Bowie's October 20, 21 and 23 precincts and Brazos's mail precincts;
    - Webb's October 28 mail list without VUIDs (5 of its voters have no state mail voter of that name);
    - Angelina's repeated check-ins;
    - Hunt's mail ballots in its in-person lists;
    - Bexar's mail ballots received twice;
    - the precinct differences in Harris, Tarrant, El Paso, Galveston, Smith and Bexar;
    - the mail lists that trail the state's (Collin, Galveston, Wichita, Gregg, Tom Green, Grayson) and the missing October 30 rosters (Grayson, Henderson, Angelina, Tom Green, Guadalupe).
5. **Refer to Tarrant County and the Secretary of State:**
    - the publication by the SOS of voters Tarrant redacts, and the changing counts of redacted records (§6.2);
    - the SOS files' inclusion of other counties' voters (§6.1), including the votes filed under a second county in §6.8;
    - the re-dating of mail ballots between daily files (§3);
    - the turnout table's Travis, Ellis, Hays, Coryell, Henderson, Orange, Potter, Smith and Tarrant figures (§3).
6. **Repeat this comparison** once the October 30 state files are complete, after Election Day and after the canvass.

Appendix A. Files

Downloaded files are saved per county:

- county files are saved as `G26_<county file name>`; files a county posts under the same name every day get the download date (`_2026-10-31`), or the download date and time (`_2026-10-31-22-19-57`) for cumulative lists that carry no voting dates (Hidalgo, Potter);
- SOS files are saved as `G26_<COUNTY>.2026 NOVEMBER GENERAL ELECTION.EarlyVoting.<MM_DD_YYYY>.csv`; when the state revises a day, the earlier copy is kept.

The files load in Election Explorer (File → Load Voter Roster); the comparisons in this report were produced from the loader's normalized output. The companion supplement (`Texas_Early_Voting_Roster_Review_2026-10-31_Supplement`) lists each anomalous record's VUID and its location in the county's and the state's files.

Appendix B. Caveats

- In-person comparisons cover October 19-30; where the state's file for a day is partial or missing, that day is shown but left out of the totals.
- County files were downloaded October 20-31 at different times; several counties post same-day lists that are later replaced, and counties keep revising earlier days. The state files were re-downloaded within about an hour after the county files on the night of October 31.
- Day-level counts for cumulative, undated county lists were recovered from consecutive snapshots and attribute voters added late to the day they first appear (Tarrant, §5.1).
- A match between two records means the same VUID; name and precinct differences were checked separately. A match by name, precinct or date without a common VUID (§2, §6.2, §6.11) is an inference, not a confirmed identity.
- This review describes data as published. It does not establish that any voter voted improperly; the records flagged in §6.5-§6.10 have ordinary clerical explanations as well as serious ones, and only the counties can resolve them.
