Texas Early Voting and Election Day Rosters: County and State Data Review

Election: November 3, 2026 General Election
Data: early voting October 19-30, mail ballots through Election Day, and Election Day, November 3, 2026
Prepared: November 4, 2026 (updates the reviews of October 20 - November 2; county files as posted by 3:30 PM November 4, with Travis's ZIP and Wichita's Election Day check-ins downloaded by hand that afternoon; state files as posted on the afternoon of November 4)
Scope: the 50 most populous Texas counties and the Texas Secretary of State (SOS) roster portal

1. Summary

Texas Election Code §87.121 requires each county to post its early voting rosters (in-person and by mail) and, after the election, its Election Day roster, and to submit them for statewide elections to the Secretary of State, which republishes them. This review compares the county and state lists voter by voter (by Voter Unique Identifier, VUID) for all twelve days of in-person early voting, October 19-30, for mail ballots through Election Day, and for Election Day, November 3, in the 50 most populous counties. It was prepared the day after the election: several counties had not yet posted their Election Day rosters, and most of the largest had not yet sent them to the state.

Key findings:

1. **Nineteen of the 34 counties that post their own rosters had posted an Election Day roster by the afternoon of November 4,** listing 1,165,836 Election Day voters: Harris 306,131, Dallas 159,591, Bexar 139,088, Tarrant 137,270, Travis 101,814, Collin 76,634, Williamson 46,313, Hidalgo 38,642, and Brazoria, Galveston, Smith, Brazos, Jefferson, Webb, Grayson, Bastrop, Wichita, Gregg and Potter (§5.4). Fifteen had not: Denton, Fort Bend, El Paso, Montgomery, Cameron, Bell, McLennan, Hunt, Tom Green, Bowie, Victoria, Henderson, Angelina, Randall and Guadalupe. The "Election Day Cumulative Roster" on Victoria's roster page is from the May 26, 2026 runoff.
2. **The state's Election Day files are far from complete.** The state's Election Day turnout table shows 651,633 Election Day voters statewide. Harris's state file holds 38 voters, Bexar's 21 and Dallas's 95, against 306,131, 139,088 and 159,591 on the counties' rosters; Tarrant's holds 13% of the county's count, Travis's 45%, Collin's 68% and Williamson's 88%; Nueces's and Bastrop's state files are empty. Where the state's file is at least 90% complete (Hidalgo, Brazoria, Galveston, Smith, Brazos, Jefferson, Webb, Gregg, Potter), the county and state lists agree on 99.2% to 99.96% of Election Day voters.
3. **Seventeen voters are listed as voting on Election Day and earlier in the same county's own files:** 7 also voted early in person (Bexar 3, Grayson 3, Galveston 1; the state lists the early vote for all seven), and 10 also have a returned mail ballot (Dallas 5, Webb 2, and one each in Tarrant, Travis and Brazos) (§6.12). Nine more Election Day voters are listed by the state as early voters in the same county, although the county's own early lists do not have them (Harris 4, and one each in Bexar, Collin, Williamson, Galveston and Smith) (§5.4).
4. **Thirty-one voters are now recorded as voting in two counties, eleven of them new and all involving Election Day.** Seven voted early in one county and on Election Day in another (Denton then Smith, Travis then Bexar, Bexar then Dallas, El Paso then Galveston, Harris then Travis, Hidalgo then Travis, and Tarrant then Bexar), three voted on Election Day in two counties (Bexar and Harris, Dallas and Travis, Collin and Dallas), and one cast an Election Day provisional ballot in Collin and voted on Election Day in Dallas. Ten of the eleven have the same first and last name in both counties; the Tarrant/Bexar voter has the same first name and a different last name (§6.8).
5. **The state keeps revising the early voting files, and now lists early voters the counties do not.** Since the November 2 review, 395 county-day counts for October 14-30 changed: 271 mail counts (net +3,641, 154 of them downward) and 124 in-person counts (net +1,623, 45 downward). Hays's mail ballots were re-dated in bulk (October 21 from 53 to 1,252, October 28 from 94 to 753); Harris's October 30 mail file, empty until now, holds 1,146. The state's files now list early in-person voters that appear on none of the county's lists: Bexar 1,843, Collin 1,073 (and 682 more that Collin lists only as provisional voters), Travis 513, Fort Bend 455 and Victoria 90, most of them dated October 27-30.
6. **Early in-person voting: the two sources still agree closely, but not completely.** Over every day for which both are complete, the county's and the state's lists of early in-person voters agree on 99.0% or more of voters in 30 of the 33 counties with dated county rosters, and on 98.9% in Fort Bend and Hunt and 98.6% in Guadalupe. Bexar's agreement fell from 99.7% to 99.5% with the state's revisions. The state's early voting turnout table now agrees with its CSVs for every county and day; the overstatements reported earlier (Travis, Ellis, Hays, Coryell, Henderson, Orange, Potter, Smith) are gone.
7. **Mail ballots through Election Day.** The state's Election Day files add mail ballots, and several county mail lists stop before Election Day. Travis's list lacks 579 state mail voters (350 of them in the state's Election Day file), Montgomery's 527 (355; its latest list runs through October 30), Harris's 373, Hunt's 344, Galveston's 318 (it has posted no mail list for October 27 or 29), Dallas's 277, Gregg's 199, Bexar's 194, Jefferson's 190 (184 in the state's Election Day file) and Wichita's 169.
8. **The state's files continue to name voters that Tarrant County redacts,** now including Election Day: Tarrant's Election Day roster has 76 redacted records. The state's partial Tarrant Election Day file also lists 816 voters who are on none of Tarrant's lists.
9. **Records that warrant review by the counties** (none is proof of wrongdoing; most have clerical explanations):
    - the 17 voters with an Election Day vote and an earlier vote in the same county, and the 31 voters on two counties' rosters, first the eleven new ones;
    - 43 voters listed both as a returned mail ballot and as an early in-person voter in the same county (Dallas 16, El Paso 8, Tarrant 5, Jefferson 4, Grayson 3, Tom Green 2, Travis 2, and one each in Bexar, Brazoria and Galveston);
    - 80 VUIDs that name entirely different people in two records, now including one VUID on two rows of Bexar's Election Day roster and one on Collin's and Dallas's Election Day rosters;

- 228 same-day duplicate check-ins (166 in Angelina; 31 on Election Day rosters, 10 of them Bexar's and 7 Jefferson's), and 39 mail ballots listed as received on two days;
- precinct differences: Williamson's mail voters (4,718), Bowie's October 20, 21 and 23 reports (4,717), Harris 3,509, Tarrant 316, El Paso 253, Galveston 206, Brazos 164.

2. Scope and method

Counties (by 2025 Census population):

- Ranks 1-20: Harris, Dallas, Tarrant, Bexar, Travis, Collin, Denton, Fort Bend, Hidalgo, El Paso, Montgomery, Williamson, Cameron, Brazoria, Bell, Galveston, Nueces, Lubbock, Hays, Webb.
- Ranks 21-50: McLennan, Jefferson, Smith, Brazos, Ellis, Johnson, Kaufman, Comal, Guadalupe, Midland, Parker, Ector, Grayson, Randall, Taylor, Rockwall, Wichita, Gregg, Hunt, Liberty, Tom Green, Bastrop, Potter, Bowie, Victoria, Henderson, Angelina, Orange, Coryell, Walker.

Sources:

- each county's own roster files, downloaded daily October 20 - November 4. 34 counties post their own rosters, and all 34 are compared in the tables below (Guadalupe's mail lists are scanned images, so only its in-person rosters are compared). The other 16 (Nueces, Lubbock, Hays, Ellis, Johnson, Kaufman, Comal, Midland, Parker, Ector, Taylor, Rockwall, Liberty, Orange, Coryell, Walker) link to the SOS portal;
- the SOS portal's per-county early voting CSVs for October 14-30, for all 50 counties, all days re-downloaded on the afternoon of November 4, since the state revises them (a second complete pass found no further change);
- the SOS portal's per-county Election Day rosters (ZIPs, downloaded November 4; 48 counties have one, Nueces's and Bastrop's are empty);
- the SOS early voting turnout tables for October 19-30 and the Election Day turnout table.

Method. All files were read with Election Explorer's roster loader, which normalizes each county's layout to VUID, precinct, name, voting method and date. For every county file, the number of VUIDs loaded matches an independent count of the 10-digit identifiers in the raw file exactly for 493 of the 501 files read, including every Election Day roster (Bexar's is a 58 MB PDF). Of the other eight, two are the corrections listed below; Dallas's in-person CSV, El Paso's October 30 file and Bastrop's Election Day CSV each hold one 10-digit number in an address, not a voter; one Travis mail workbook differs by one identifier, as in earlier reviews; and in Guadalupe's October 26 and 27 rosters VUIDs printed together with the ZIP code are counted differently. Collin posted a combined early voting and Election Day list ("voters-through-november-3-2026") whose voting method is in a "VotedPhase" column the loader does not yet read; Collin's separate early voting and Election Day lists were used instead. Webb's October 28 mail list gives no VUIDs; its voters were matched by name to the state's Webb mail voters, which assigned VUIDs to 46 of its 52 rows. Corrections made before comparing: mail ballots the county lists as received November 4, after Election Day, are left out (Bastrop 8, Randall 5). The lists were then compared by VUID:

- *early in-person, by day*: the county's in-person voters for each of October 19-30 vs. the SOS's IN-PERSON voters for that date. For counties whose lists are cumulative and undated (Tarrant, Hidalgo, Denton, El Paso, Potter), each day was recovered from consecutive daily snapshots (a day's voters = that day's snapshot minus the previous day's). A day counts toward the totals only when both sources have it and the state's file holds at least 90% of the county's count;
- *mail*: the county's latest mail list (or all daily files) vs. the SOS's MAIL-IN voters in its early voting files for October 14-30 and its Election Day file;
- *Election Day*: the county's Election Day roster vs. the IN-PERSON voters of the SOS Election Day file. Harris's, Tarrant's, Hidalgo's and Potter's Election Day rosters carry no date per voter; every voter on them is an Election Day voter. Collin's Election Day roster also lists Election Day provisional ballots, which are counted separately.

"County-only" and "state-only" voters were checked against the other 49 counties' files. Name and precinct comparisons ignore formatting (case, spacing, leading zeros, "Precinct"/"P"/"S" prefixes, and a two-digit precinct split such as "418603" for precinct 4186). Voter names and VUIDs are deliberately not reproduced in this report; the companion supplement lists the VUIDs and file locations of the anomalies for county and state staff.

County ids follow alphabetical order, except that the portal sorts McLennan after McCulloch (id 161). An empty response means the county reported nothing for that day.

File contents. `VOTER_NAME` ("LAST, FIRST MIDDLE"), `ID_VOTER` (VUID), `VOTING_METHOD` (`IN-PERSON` / `MAIL-IN`), `PRECINCT`. There is **no address and no date column**. An early voting CSV holds only the voters credited on that date. The Election Day ZIP holds two CSVs: `<id>_<COUNTY>_VOTER_INFO.csv` (the voters, including mail ballots credited on Election Day) and `<id>_<COUNTY>_POLLING_PLACE_INFO.csv` (voter counts per polling place).

Election Day files. On the afternoon of November 4 the state's Election Day turnout table showed 651,633 in-person Election Day voters statewide and its Election Day files held 489,671 in-person voters for the 50 counties. Of the largest counties, Harris's file held 38 voters, Bexar's 21, Dallas's 95, El Paso's 5, Fort Bend's 4 and Denton's 32; Nueces's and Bastrop's were empty. Counties that post no roster of their own had sent the state their Election Day voters in full or in part: Hays 21,379, Lubbock 20,145, Ellis 18,459, Parker 16,936, Rockwall 9,002, Orange 6,903, Liberty 6,089, Coryell 5,098, Walker 4,957 and Johnson 3,906, but Comal 7, Kaufman 5, Midland 2, Taylor 1, Ector 1 and Nueces none (§5.3).

Timeliness and revisions of the early voting files. By November 4 all 50 counties had a complete in-person file for each of October 19-30 (every county's October 30 file holds at least 98.6% of the county's count, except Henderson's, whose October 30 list also holds mail voters, §5.1). Re-downloading every day for every county on November 4 changed 405 files from the download of November 2. Compared with the files used in the November 2 review, 395 county-day counts for October 14-30 differ: 271 mail counts (net +3,641 voters, 154 of them downward) and 124 in-person counts (net +1,623, 45 downward). The largest in-person changes are Bexar's October 30 (+378), Hays's October 30 (+300) and Collin's October 30 (+216); Bexar's earlier days fell by 50-100 each (October 19 from 42,070 to 41,979). The state re-dates mail ballots as well as adding them: Hays's October 21 mail rose from 53 to 1,252, its October 28 from 94 to 753 and its October 14 from 559 to 1,133; Lubbock's October 27 rose from 77 to 528 while its October 19 fell from 159 to 24 and its October 21 from 148 to 19; Harris's October 30 mail file now holds 1,146 (none on November 2); Cameron's October 29 rose from 556 to 707 while its October 26 fell from 94 to 9.

Early voters the counties do not list. After these revisions the state's early voting files list in-person voters who are on none of the county's own lists, on any day and by any method: Bexar 1,843, Collin 1,073 (and 682 more whom Collin lists only as provisional voters), Travis 513, Fort Bend 455 (and 23 whom Fort Bend lists only as mail voters) and Victoria 90. Most are dated October 27-30 by the state (in Bexar, 470 on October 30). They are not voters of other counties.

Mail dates. The date of an SOS mail file is not the day the county received the ballot, and the state moves ballots from one day's file to another. Mail comparisons in this review are therefore made over all days together, including the mail ballots in the state's Election Day files.

Turnout table vs. CSVs. The statewide early voting table now shows 784,391 in-person voters for October 19, 743,682 for October 20, 684,257 for October 21, 630,948 for October 22, 690,956 for October 23, 518,894 for October 24, 268,355 for October 25, 584,002 for October 26, 550,795 for October 27, 549,738 for October 28, 590,799 for October 29 and 852,874 for October 30 (7,449,691 in all), and 260,372 mail voters. It now agrees with the state's CSVs for every county and day. The Election Day table's statewide totals (8,102,231 in-person voters for the election and 213,462 mail voters) do not match the early voting table's (7,449,691 early in-person voters plus 651,633 on Election Day is 8,101,324; 260,372 mail voters).

Name formatting. The SOS appends name suffixes to the middle name without a space ("RAYJR"), which causes apparent name mismatches against county files.

4. How each county posts its rosters

"Cumulative" means each new file contains the earlier ones; "daily" means each file holds only that day.

Counts are distinct VUIDs (county voters without a VUID are excluded). "On both", "County only" and "State only" add up the days on which both sources are complete. "Agree" is the voters on both lists as a share of the larger list; it is 100% only when the county-only and state-only counts are both 0, and otherwise is rounded down (to two decimals from 99.9%), so a near-match is never shown as 100%. Hunt's counts exclude its mail ballots. McLennan's list (58,840 voters, posted the evening of October 30) contains all but 117 of the state's 57,673 McLennan in-person and mail voters. Potter's first two snapshots were posted on the same day, so its October 19 and 20 cannot be separated. Not posted: Gregg's October 21 and Guadalupe's October 28-30. Grayson's, Henderson's, Angelina's and Tom Green's October 30 lists, posted after the November 2 review, are now included. Henderson's October 30 "Early Voting Roster" also lists 573 voters whom the state records as mail ballots (all dated October 30 by Henderson), so its October 30 is marked partial although the difference is on the county's side; it is left out of Henderson's totals.

Most state-only voters are voters of other counties (§6.1), voters the state lists although the county lists them on no day (§3: Bexar, Collin, Travis, Fort Bend, Victoria) or, in Tarrant, voters the county lists a day later than the state and redacted voters (§6.2).

5.2 Mail ballots

The SOS mail data begins October 14 and is dated by when the state received it, days after the county, and the state moves ballots between days (§3); the state's Election Day files add mail ballots credited on Election Day. County mail lists go back to the first ballots received (September 21-22).

Hunt	506	817	473	344 (319 dated Oct 14-19)

McLennan's list does not separate mail voters; the state has 1,664 McLennan mail voters, all but 20 of them on McLennan's list. Henderson and Angelina post no mail list and Guadalupe's mail lists are scanned images; the state has 595, 867 and 1,056 mail voters for them (573 of Henderson's are on its October 30 early voting roster, §5.1). Webb's count includes the 46 voters of its October 28 list matched by name (§2).

For these 16 counties the state is the only machine-readable published source. All 16 have state files for each of October 19-30. Ten have substantial Election Day files; Comal, Kaufman, Midland, Taylor and Ector have between 1 and 7 Election Day voters, and Nueces's Election Day file is empty. Nueces's October 25 file still holds 534 voters and its October 27 file 1,889.

"State file partial" marks a county whose state Election Day file holds less than 90% of the county's count; the comparison will be meaningful only when the state's file is complete. Counts are distinct VUIDs; Collin's 1,277 provisional voters are not included. Where the state's file is nearly complete, most state-only voters are voters of other counties (Brazos 6 of 6, Brazoria 4 of 5). In Tarrant, 816 of the 828 state-only Election Day voters are on none of Tarrant's lists (12 are on its mail list), although Tarrant's Election Day roster has 76 redacted records (§6.2). In Collin, 197 of the 227 are voters Collin lists as Election Day provisional ballots.

Election Day voters listed as early voters by the state: nine voters on a county's Election Day roster are listed by the state as early in-person voters in the same county, while the county's own early lists do not have them: Harris 4, and one each in Bexar, Collin, Williamson, Galveston and Smith. Either the state's early voting file or the county's Election Day roster has the wrong method, or the voter voted twice.

6. Anomalies between county and state data

6.1 State county files include voters of other counties

Across October 14 - November 3, 3,138 voters (2,872 early in-person, 226 on Election Day, 40 mail) in the SOS county files appear on a different county's own roster, with the same first name and that county's precinct. The largest numbers are in the SOS files for Travis (339), Dallas (290), Denton (260), Bexar (252), Harris (159), Collin (156), Johnson (139), Hays (138), Tarrant (117) and Brazos (114). Of the Harris, Dallas and Bexar state Election Day files, which hold only 38, 95 and 21 voters, 34, 24 and 13 are voters on another county's roster. No voter appears in two SOS county files, so these are records assigned to the wrong county's file, not duplicates. Anyone using SOS county files alone will slightly overcount each county.

6.2 State files identify voters Tarrant County redacts

Tarrant replaces the name, VUID and address of protected voters with "–Redacted–", keeping only precinct and date: 166 records in its current mail list, 50 in its early in-person list and 76 in its Election Day roster. No other county redacts identities; Harris hides the address (only) of named voters.

- **Mail:** the SOS Tarrant mail files list 136 mail voters who are not on Tarrant's mail roster (135 after excluding one voter of another county). For 102 of them there is a redacted Tarrant mail record with the same precinct and the same date.
- **Early in person:** the SOS Tarrant files list 97 in-person voters (besides 114 of other counties) who are not on Tarrant's roster on any day; 49 of them match a redacted Tarrant in-person record by precinct.
- **Election Day:** the state's Tarrant Election Day file, 13% complete, lists 816 voters who are on none of Tarrant's lists, more than ten times Tarrant's 76 redacted Election Day records.
- **Redacted counts:** Tarrant's cumulative in-person list held 104 redacted records on October 20, falling to 47 in the afternoon file of October 27, then 53 in the evening file of October 27, 51 on October 30 and 50 on October 31; its cumulative mail list held 215 in the October 23 afternoon file, falling to 168 on October 31 and 166 on November 4. A cumulative list should not shrink.

The match remains close for both early voting methods. This continues to indicate that the state publishes the name, VUID and precinct of voters whose identities Tarrant withholds. It cannot be proven record by record, because the redacted rows carry no identifier. Neither source exposes an address.

6.3 Reporting gaps in the state data

- **Election Day:** the state's Election Day files are partial or empty for most large counties (§3, §5.4): Harris, Dallas, Bexar, Denton, El Paso, Fort Bend, Cameron, Bell, McLennan, Grayson, Bastrop, Wichita, Victoria, Henderson, Angelina, Randall, Tom Green, Comal, Kaufman, Midland, Taylor, Ector and Nueces hold fewer than 100 Election Day voters each.
- **Early in-person:** every county has a complete state file for every day of October 19-30, but the state now lists early voters some counties do not (§3). Gregg's October 19 (3 of 3,677) and Hunt's October 20 (1,724 of 2,044) remain partial; Nueces's October 25 and 27 files are small (534 and 1,889 voters).
- **Mail:** Ector (2) reports almost none to the state; the state re-dated Hays's and Lubbock's mail ballots in bulk (§3).

6.4 Mail ballots in state data but not in the county's mail list

- **Lists not updated through Election Day:** Montgomery 527 (355 in the state's Election Day file; its latest list runs through October 30), Jefferson 190 (184; through October 30), Gregg 199 (66 in the Election Day file, 57 dated October 29 and 48 October 30; through October 29), Wichita 169 (105 dated October 29, 50 October 30; through October 29), Fort Bend 128 (56; through October 30) and Webb 61 (48 dated October 14, 12 in the Election Day file).
- **Travis:** 579 state mail voters are on none of Travis's lists (350 in the state's Election Day file, 96 dated October 26, 57 October 19), although Travis's mail lists run through November 3.
- **Galveston:** 318 (216 dated October 29 and 91 October 27, days for which Galveston has posted no mail list).
- **Hunt:** the state has 817 Hunt mail voters, the county's files 506 (its mail lists and the "BBM" rows in its daily lists); 344 state mail voters are in neither, 319 of them dated October 14-19 by the state.
- **Dallas:** 277 state mail voters (besides two voters of other counties) are not on Dallas's November 3 mail list (84 dated October 30, 50 October 26, 46 October 25).
- **Elsewhere:** Harris 373 (39 in the state's Election Day file, 39 dated October 29), Bexar 194 (83 dated October 15, 43 October 28), Bell 171, Collin 157 (92 in the Election Day file), Bowie 49, Brazos 23, Denton 22, Tom Green 20, El Paso 16, Victoria 14, Brazoria 13, Cameron 13, Smith 9, Williamson 9, Bastrop 5, Hidalgo 3, Randall 3 and Grayson 2.

6.5 Precinct differences

- **Williamson:** the file posted November 4, like every file since October 22, gives a precinct different from the state's for its mail voters (4,718); the October 21 file matched the state. Three early in-person rows and one Election Day row differ as well.
- **Bowie:** the October 20, 21 and 23 early vote reports give a precinct that differs from the state's for 1,566, 1,710 and 1,441 voters (4,717); the October 22 and 24-30 reports match.
- **Brazos:** 163 mail voters, 141 of them in its mail list of October 19-20, and one in-person voter.

- **Bexar:** 65 voters in the October 22 check-in report, and six in other reports.
- **Elsewhere,** on matched voters: Harris 3,509 (3,428 early in-person), Tarrant 316 (271 early in-person, 14 Election Day), El Paso 253 (all early in-person), Galveston 206, Smith 116, Denton 17, Montgomery 17, Hunt 15, Travis 13, Dallas 6, Potter 4, Bastrop and Brazoria 3 each, Fort Bend 2, and one each in Cameron, Gregg, Victoria and Wichita. On Election Day rosters precincts agree almost everywhere (Tarrant 14, Dallas 3, Galveston 3 differ).

Denton and Gregg write the precinct with a two-digit split appended ("418603" for 4186); this is formatting, not a difference.

6.6 Surnames

On matched voters, the surname differs between the county and the state in 186 Collin, 90 Tarrant, 89 Denton, 84 Bexar, 76 Williamson, 68 Galveston and 62 Brazoria records, and in 53 or fewer elsewhere (1,197 in all, including Election Day rosters). In all but 45 of these records the two names share at least one name: they are name changes recorded in one system and not the other, or formatting.

6.7 One VUID, two different people

- **Within one county's files:** new on Election Day, one VUID is listed for two different voters on two rows of Bexar's Election Day roster (precincts 1071 and 3039.01). Earlier: ten VUIDs on rows 7038-7047 of Galveston's October 30 check-in list repeated further down the list for other voters, and one VUID each in Harris's mail file, Bowie's October 22 and 24 mail lists, Brazoria's October 27 mail list, Galveston's October 27 check-ins, Bexar's October 19 and 23 check-ins, Dallas's in-person list and Hunt's mail rows, and two in Galveston's October 28 mail list.
- **On two counties' rosters:** new on Election Day, one VUID is on Collin's Election Day roster (precinct 18) and on Dallas's Election Day roster (precinct 2520) for two people with no name in common; the state's Dallas Election Day file lists the Dallas voter, with the Collin precinct. Eight earlier ones are unchanged (six involving Bell's roster).
- **SOS file vs. a county roster:** 74 VUIDs name a voter in an SOS file and an entirely different person on a county's roster: 46 within one county (Galveston 12, Harris 6, Bexar 3, Brazoria 3, Guadalupe 3, and 1-2 in 15 more) and 29 across counties (twelve on Bell's roster); one VUID is in both groups. New: one each on Gregg's and Webb's Election Day rosters against the state's Election Day files, and in Collin, Potter and Victoria early voting files.

Nineteen of the VUIDs in this section, including all twelve on Bell's roster, are recent registrations in one numeric range (2223365544-2223382143); the Bell County Elections office and the SOS should compare them first.

6.8 One voter in two counties' own rosters

Twenty-seven are the same person in both counties (same first and last name); four have the same first name and a different last name. The eleven new ones all involve Election Day:

Collin, Dallas (new)	**Election Day provisional ballot** (Collin precinct 9)	**Election Day** (Dallas precinct 3969)	SOS Dallas Election Day file, with the Collin precinct

Tarrant's, Hidalgo's and El Paso's early voting lists carry no voting date, so "from October 28" is the first daily list that contains the voter. A provisional ballot is not counted until the ballot board accepts it, so the last row may be resolved by the board's decision.

6.9 Mail ballot and early in-person vote by the same voter

Forty-three voters are listed both as a returned mail ballot and as an early in-person voter in the same county: Dallas 16, El Paso 8, Tarrant 5, Jefferson 4, Grayson 3, Tom Green 2, Travis 2, and one each in Bexar, Brazoria and Galveston. New since the November 2 review: three Tarrant voters with mail ballots recorded October 31 and November 2 (two) who are on Tarrant's early in-person list, and one Bexar voter who voted in person October 20 with a mail ballot received October 31. The Denton voter listed in the last review is no longer on Denton's mail list. A voter whose mail ballot has been accepted may not vote in person; these may be cancelled mail ballots, provisional votes or data errors.

6.10 Duplicates within county files

- **Same-day duplicate check-ins:** 228. Angelina 166 (its early voting history files list voters two or three times on the same day), Bexar 16 (10 on its Election Day roster), Jefferson 11 (7 on Election Day), Grayson 10 (2 on Election Day), Collin 8 (4 on Election Day), Guadalupe 4, Dallas 3, Brazoria, Galveston and Tom Green 2 each, and 1 each in Henderson, Potter (Election Day), Travis and Webb. Repeated VUIDs that belong to two different people are counted in §6.7 only.
- **Mail ballot received twice:** 39: Bexar 15, Travis 6, Brazoria 3, Montgomery 3, Grayson, Gregg, Hunt and Tom Green 2 each, and 1 each in Bowie, Brazos, Galveston and Harris.

6.11 Identifiers that are not state VUIDs

County	Records	ID length	Lists
Collin	776	6, 7, 8, 9 digits	early in-person (442), mail (209), Election Day (115), provisional (10)

County	Records	ID length	Lists
Tarrant	669	8 digits (one 7, one 9)	mail (430), early in-person (184), Election Day (55)
Denton	264	7 digits	early in-person (263), mail (1)
Grayson	108	6, 8, 9 digits	early in-person (76), Election Day (16), mail (16)
El Paso	91	7 digits	mail (74), early in-person (17)
Hidalgo	91	8-9 digits	mail (65), early in-person (20), Election Day (6)
Smith	76	7 digits (one 8)	early in-person (46), mail (26), Election Day (4)
Guadalupe	69	7 digits (one 8)	early in-person
Jefferson	69	6, 7, 8, 9, 11 digits	Election Day (36), early in-person (33)
Webb	36	8 digits	mail (27), early in-person (8), Election Day (1)
Gregg	28	6, 7, 11 digits	early in-person (22), Election Day (6)
Bowie	11	9 or 11 digits	mail
Bexar	9	4, 8, 9, 11 digits	early in-person
Tom Green	4	9 digits	mail
Henderson	3	8, 9, 11 digits	early in-person
Travis	2	9 digits	mail

These are likely county-internal numbers for voters whose state VUID had not been assigned or synchronized, or (for the 9- and 11-digit cases) a VUID with a digit missing or added. The state files contain none, so these voters cannot be matched by ID; for 34 of them the state lists a voter with the same name and precinct under a 10-digit VUID (see the supplement). Webb's October 28 mail list uses county certificate numbers throughout and is not counted here (§2).

6.12 Election Day vote and an earlier vote in the same county

Seventeen voters are on a county's Election Day roster and on the same county's own early in-person or mail list:

- **Early in-person and Election Day (7):** Bexar 3 (early votes October 25, 28 and 29), Grayson 3 (October 23, 26 and 29) and Galveston 1 (October 19). Each is in the same precinct both times, and the state lists the early vote for all seven (its Election Day files for Bexar and Grayson are nearly empty; Galveston's does not list this voter).
- **Mail ballot and Election Day (10):** Dallas 5 (mail ballots received October 24 (two), 25, 30 and November 3), Webb 2 (October 15 and 27), Tarrant 1 (November 2), Travis 1 (October 19) and Brazos 1 (October 9). The state lists the Election Day vote for the Webb and Brazos voters, the mail ballot for one Dallas voter, and neither for the others.

A voter who has voted early may not vote again on Election Day; a voter whose mail ballot has not been accepted may vote in person after surrendering or cancelling it, or provisionally. These may be cancelled mail ballots, provisional votes, check-ins that did not lead to a ballot, or data errors; only the counties can tell.

7. Other county data quality notes

- **Blank VUIDs** (named voters with no ID): Harris's mail list; Collin's provisional voters; Guadalupe, Grayson and Tom Green early in-person rows; Bell mail rows; Jefferson in-person rows (masked or omitted); Collin's Election Day roster (83 rows with no VUID, and 115 with a county number, §6.11). Travis's and Montgomery's Limited Ballot voters have no VUID by design. Tarrant's 292 redacted records (166 mail, 50 early in-person, 76 Election Day) also have no VUID (§6.2).
- **No voting date:** Tarrant's, Hidalgo's and Potter's early voting lists, Denton's from October 20, El Paso's from day 2 and McLennan's list carry no date per voter, nor do Harris's, Tarrant's, Hidalgo's and Potter's Election Day rosters (every voter on them voted on Election Day). Jefferson's lists carry neither date nor precinct. Bowie's mail lists misprint three dates, and three rows of Victoria's October 30 list have no date.
- **Not yet posted** by the afternoon of November 4: Election Day rosters for Denton, Fort Bend, El Paso, Montgomery, Cameron, Bell, McLennan, Hunt, Tom Green, Bowie, Victoria, Henderson, Angelina, Randall and Guadalupe; Guadalupe's early voting rosters for October 28-30 and Gregg's for October 21; mail lists after October 30 for Fort Bend, Montgomery, Bell, Jefferson, Webb, Bowie, Victoria and Brazos, and after October 29 for Gregg and Wichita.
- **Files posted late or misdated:** Grayson's, Henderson's, Angelina's and Tom Green's October 30 rosters appeared after November 2; Victoria's roster page links an "Election Day Cumulative Roster" from the May 26 runoff; Bexar's file names give 2028 for October 27, 28 and 30; Harris's Election Day roster is split into four CSV parts.
- **Hard-to-read formats:** Guadalupe's mail lists are scanned images; Wichita's PDFs sit behind a bot challenge; Smith's lists are in a JavaScript document portal; Jefferson posts Excel 97-2003 (.xls) files; Bexar's Election Day roster is a 58 MB PDF; Collin's combined list of all in-person voters

gives the voting method only in a "VotedPhase" column.

8. Recommendations

1. **Download again over the coming days:** most counties' Election Day files at the state are partial or empty, fifteen counties have not posted their Election Day rosters, and several mail lists stop before Election Day. Re-download every SOS early voting day and Election Day file before each comparison.
2. **Prefer county files** for counts and voter lists; use the SOS portal for the 16 counties that post nothing else and as a cross-check. Do not read SOS mail dates as received dates.
3. **When using SOS county files,** expect voters of other counties in each file (§6.1), including the Election Day files.
4. **Refer to the counties, first:**
    - the 31 voters recorded in two counties (§6.8), first the eleven new ones involving Election Day;
    - the 17 voters with an Election Day vote and an earlier vote in the same county (§6.12), and the nine Election Day voters the state lists as early voters (§5.4);
    - the 43 voters with both a mail ballot and an early in-person vote (§6.9);
    - the shared VUIDs (§6.7), first those on Bell's roster, Galveston's October 30 check-in list and Bexar's and Collin's/Dallas's Election Day rosters;
    - Williamson's mail precincts, Bowie's October 20, 21 and 23 precincts and Brazos's mail precincts;
    - Angelina's repeated check-ins and the Election Day duplicate check-ins in Bexar, Jefferson, Grayson and Collin;
    - the mail lists that trail the state's (Travis, Montgomery, Galveston, Gregg, Jefferson, Wichita, Fort Bend).
5. **Refer to Tarrant County and the Secretary of State:**
    - the publication by the SOS of voters Tarrant redacts, the 816 voters in the state's Tarrant Election Day file who are on none of Tarrant's lists, and the shrinking counts of redacted records (§6.2);
    - the early voters the state lists that Bexar, Collin, Travis, Fort Bend and Victoria do not (§3);
    - the SOS files' inclusion of other counties' voters (§6.1), and the re-dating of mail ballots in earlier daily files (§3).
6. **Repeat this comparison** once the state's Election Day files are complete, and after the canvass.

Appendix A. Files

Downloaded files are saved per county:

- county files are saved as `G26_<county file name>`; files a county posts under the same name every day get the download date (`_2026-11-04`), or the download date and time for cumulative lists that carry no voting dates (Hidalgo, Potter);
- SOS early voting files are saved as `G26_<COUNTY>.2026 NOVEMBER GENERAL ELECTION.EarlyVoting.<MM_DD_YYYY>.csv`, and SOS Election Day files as `G26_<COUNTY>.2026 NOVEMBER GENERAL ELECTION.ElectionDay.11_03_2026.zip`; when the state revises a day, the earlier copy is kept.

The files load in Election Explorer (File → Load Voter Roster); the comparisons in this report were produced from the loader's normalized output. The companion supplement (`Texas_Early_Voting_and_Election_Day_Roster_Review_2026-11-04_Supplement`) lists each anomalous record's VUID and its location in the county's and the state's files.

Appendix B. Caveats

- In-person comparisons cover October 19-30 and November 3; where the state's file for a day is partial or missing, that day is shown but left out of the totals. Most state Election Day files were partial on November 4.
- County files were downloaded October 20 - November 4 at different times; several counties post same-day lists that are later replaced, and counties keep revising earlier days. The state files were re-downloaded on the afternoon of November 4.
- Day-level counts for cumulative, undated county lists were recovered from consecutive snapshots and attribute voters added late to the day they first appear (§5.1).
- A match between two records means the same VUID; name and precinct differences were checked separately. A match by name, precinct or date without a common VUID (§2, §6.2, §6.11) is an inference, not a confirmed identity.
- This review describes data as published. It does not establish that any voter voted improperly; the records flagged in §5.4 and §6.5-§6.12 have ordinary clerical explanations as well as serious ones, and only the counties can resolve them.
